SUBJECT:  
Governor,

Concerned about big price increase request by PSC for natural gas (CNG) used for motor fuel. I do not mind paying my fair share but the increase proposed by the PSC seems out of line! Can we not base the increase on our abundant local natural gas prices WEXPRO and not worry about national prices? I spent a great deal of money on a well used CNG vehicle as did many others in our great state. My first reason was to save money on fuel followed by my desire to own a clean burning vehicle. Please help with your influence to keep prices for CNG reasonable. Thanks for your attention. RT Bates in Pleasnt View
