RE: "DOCKET NO 07-057-13 In the Matter of the Application of Questar Gas Company to Increase Distribution Non-Gas Rates and Charges to Make Tariff Modifications. As Filed By the Commission on Monday, December 22, 2008.

I have grave concerns over the above referenced Docket. The State gave us an incentive to change to Natural Gas. To do our part we spent a lot of money to not only save money but to keep the air in Utah as clean and healthy as possible.

Utah was pioneering the use of CNG as an example to the rest of the nation. If prices raise Utah will no longer be this example.

With the limited number of refueling stations and the limited distance we can drive on CNG it has been an effort for owners of CNG vehicles to drive. Yet we have been doing so not only to save money but to help the environment.

In Southern Utah we have clean air and we would like to keep it that way. Please help us by not allowing Questar Gas Company to raise the price of CNG.

Jack Bishop  
CNG Vehicle Owner
