Subject: Public Service Commission's Dec 22, 2008 ruling on NGV rates (Docket 07-053-13)

Please accept this as my personal request to reverse Item 2 of the above-captioned ruling - the Wexpro resource should be available to Natural Gas Vehicle users. The prospect of removing (by degrees) the incentives to purchase and use a NGV is totally against the will of the public - both statewide and nationwide.

Thank you,

John R. Campos
