RECEIVED

Hello...

Please try to Expand the incentive(s) for us Natural Gas users,
by taking a stand against the PSC and their efforts to raise prices!
I cannot justify all the trouble I have been going thru in my effort
to clear up the valley's smog if the price of fuel is yet another
troubling hurdle to overcome. The PSC will, if left unchecked,
overturn several years of Utah's growth towards clean transportation.

thanks,
marty fielder
SLC, Utah

TIA,
