UTAH PUBLIC  
SERVICE COMMISSION

2009 JAN 13 A 10:49

160207

From:

Stephen A. Fillmore

RECEIVED

I wish to comment on the commission's decision to increase cng rates while apparently ignoring public comment on the matter, and to ask why Docket 07-057-13 was ruled on while Docket 08-057-21 was still open for comment?

Is it too much to ask that the very commission that should be protecting the public interest seems to be setting the precedent that the only thing that matters is the interests of the utilities themselves? The decision you have made will effectively stop the use of cng vehicles in the state, and set us back in the fight to clean up our air, not to mention the waste of money and resources people have invested in to use cng as a motor fuel. How short sighted of you! Please reconsider your decision and re-open Docket 07-057-13 for public comment and remove the NGV rate decision at least until the broader policy issues of Docket 08-057-21 are decided on.

Please reconsider your decision-
