Joseph Spencer Grant

Email

SUBJECT:
Compressed Natural Gas for Vehicles.

Recently the PSC on dockets 07-057-13 and 08-057-21 moved to increase the cost of CNG for vehicles. This would be detrimental to Utah being in the lead of alternative, renewable, domestically sourced energy in the future. This should be reviewed and rescinded to the benefit of the great state of Utah and its citizens.

Regards,

Spencer Grant
