Below is an inquiry which was received by the Governor's Office of Constituent Services on 01/07/2009. Please respond directly to the constituent and reply to this email with a copy of your response by 1/21/2009.

Scott Grayston

UT

**SUBJECT:**

Can you please publicly share your thoughts on the PSC decision to kill NGV's. The PSC has put the blame for their ruling on the legislature and current law. What laws are forcing them to rule in such a manner where they are compelled to punish a segment of the public they are supposed to protect? Can those laws be changed, and the ruling reversed? We followed your lead and advice to move to alternative fuels. Boy were we duped! We feel betrayed now that we have invested serious money in new NGV's, only to have the rug pulled out from under us. I've got four more years before I pay off the investment I made for CNG under the current pricing. The new ruling will ensure that the investment was foolish. What I want to know is, will this ruling stand. If so, you can be assured that alternate and clean fuels will NEVER be used with trust in this state. We simply can't trust that government will not screw us in the end. I would think that EPA treats over our air quality alone, would be enough to discourage this type of money grab. Could you please publicly state your position and any plan of action that you might have.
