Subject: DOCKET NO. 07-057-13

I am a natural gas vehicle owner and I am wondering if any resolution has been reached regarding the proposed CNG price hike.

Obviously, that would really be unfortunate because all of us CNG users would then find ourselves in a position of paying more for gas that is not readily available.

I would hope that this isn't going to happen. But mostly, I'd like to get a response to hear where this issue currently stands.

Thanks,

Joel S. Hinckley
