

# NGV Technical Conference

---

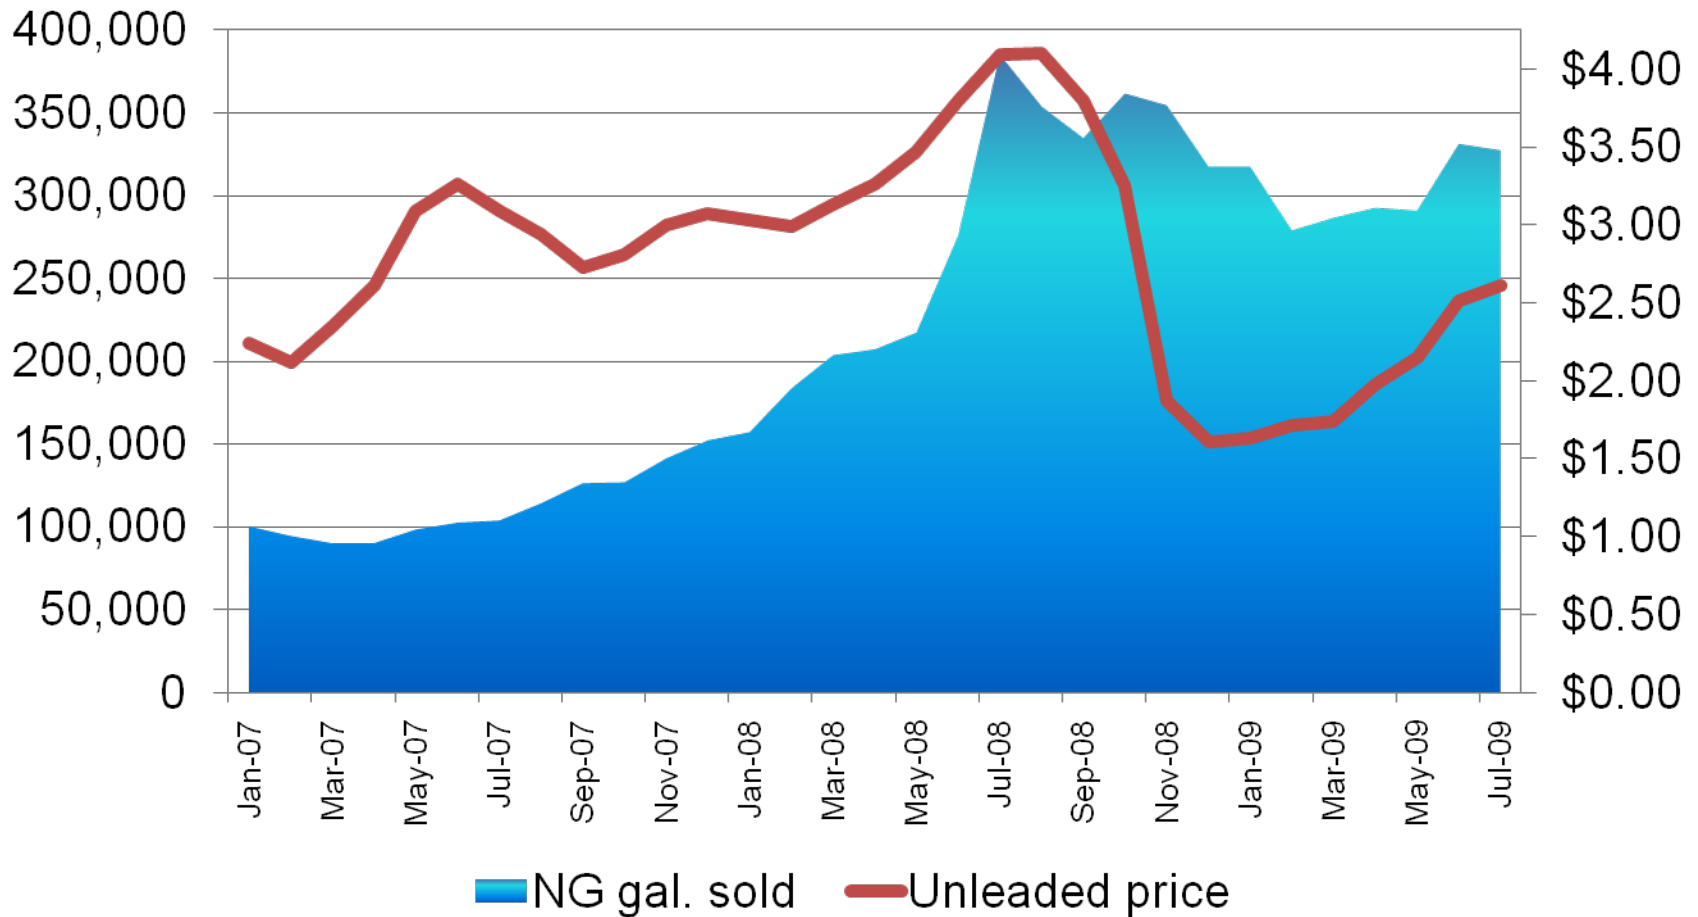

Kelly Maxfield

Vice President

Information Technology and Administration

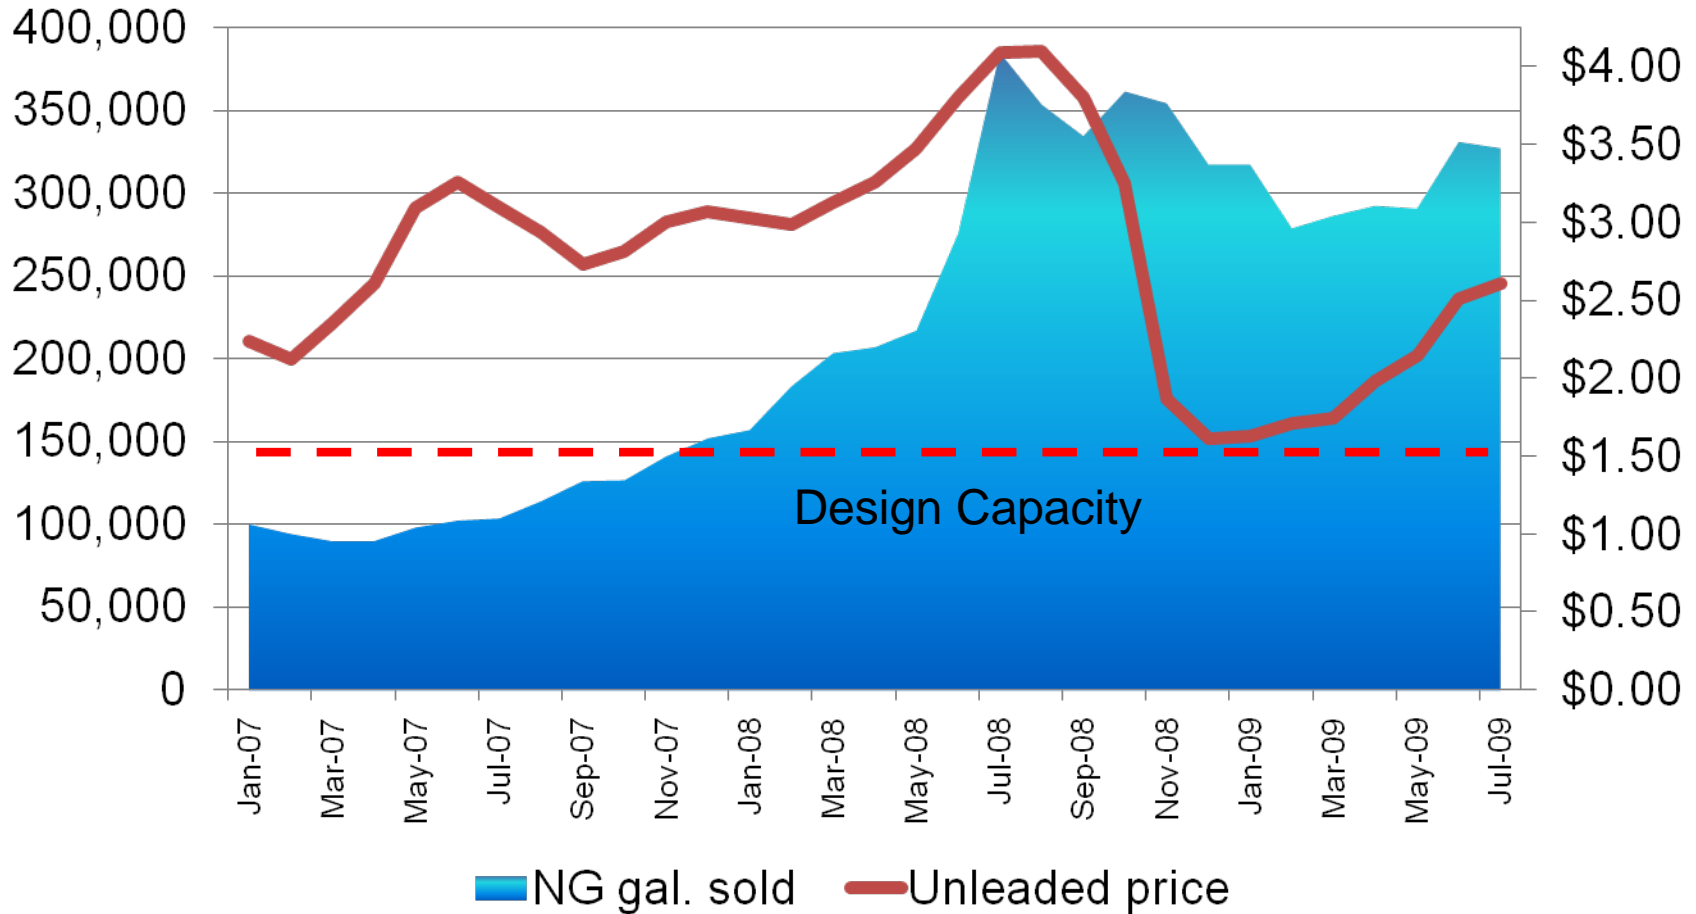

# Utah CNG demand

3.9 Million GGE sold 12 months ending June 2009

# Utah CNG demand

3.9 Million GGE sold 12 months ending June 2009

# Utah Existing and Proposed NGV Stations

# Cost of Stations

---

- Estimates included in grant:
  - New station ... \$600,000 1/ 2/
  - Up grade existing station ... \$468,000 2/

---

1/ Does not include land costs.

2/ All stations are installed in accordance with NFPA 52 and all local codes and regulations.

# Future Outlook

---

- I-15, I-80, I-70 potential expansion
- Home refueling
  - Done for convenience
  - May require more R&D
  - May not be as economic as the public stations
- OEM
  - Discussions with Ford and others , utilities would place large orders for dedicated vehicles
- EPA/Certification
