John Reinhard

UTAH PUBLIC
SERVICE COMMISSION

2009 JAN -6 A 9 04

159819

RECEIVED

SUBJECT:

I just wanted to make sure that the Governor Huntsman is aware of the PCS ruling (07-057-13) in late December that will dramatically effect for the worse the use of Natural Gas Vehicles(NGV) in Utah.

If I understand this right. The PCS is letting Questar use international rates on the gas for NGVs instead of the WexPro(local Utah/Wyoming)rates. Granted Questar has the right to earn a fair profit on their services, but this gives Questar the right to gouge a small but growing community of NGV owners. This will effectively stall if not kill the Natural Gas for Vehicles movement here in Utah.
