Dear UPSC,

I am writing in protest to higher the prices of Compressed Natural Gas.

My Natural Gas Vehicle has:

- * Helped me with my financial struggles. (Pay my bills)
- * Allowed me to pay my bills on time (no late charges)
- * Kept me from obtaining more debt; more money to gas less for needed things like food, laundry soap, toilet paper, diapers, \$ to heat the house& electricity etc. Things that are more needed to everyone than high gas prices.
- * Let the kids see their Grandparents more often
- * keeps the air cleaner
- * etc.

We use CNG 95% of the time. It has definitely kept us out of pure poverty. I would hate to see a good thing go to waste because of higher prices. I believe it helps our environment and many who would struggle more financially. It's been a blessing for us and hope that it can/ will be for many others.

Sincerely,

Helen Spencer
