SUBJECT:

Honorable Governor Huntsman

Dear Governor

We are at the crossroads concerning our States support for CNG and its destiny in becoming a workable alternative for our State and our Nation.

As I'm sure your aware the PSC has approved increases in the CNG pricing program, because of the many trade offs that are necessary to use CNG, these price increases effectively take away any real incentives to own and support CNG vehicles.

Some claim we are being subsidized, I don't believe that but never the less this is exactly what we need to get others on board with the program.

When we're up to our tails in alligators it's hard to remember that the main objective is to drain the swamp.

I will trust you Governor to do what you can to support The CNG program and do what is necessary to keep it from floundering and dieing.

Thank you for your ear.....Sincerely

Laurel Telford
