UTAH PUBLIC
SERVICE COMMISSION

>>> "kelly wilson" > 1/5/2009 5:59 PM >>>
I just read in the paper that you are allowing Questar to increase the price
of cng to \$1.43 per gallon by July 1st.

2009 JAN 21 P 5:30

160540

RECEIVED

What are you people thinking! You have just eliminated any justification
for someone to want to use natural gas in a vehicle.
Given the fact that there are a limited number of fueling stations in the
State, it's already a total pain in the rear to drive miles out of your way
to fuel up. Your vehicle will wear out before you can recoup the cost of
converting to natural gas! So, where is the incentive? Clean air? Good
luck! Not going to happen!

If those in the public service commission can't keep Questar in check, maybe
it's time to change the guard.
