

2.12 THERMWISE MULTI-FAMILY REBATES

PROGRAM DESCRIPTION

Through the ThermWise Multi-Family Rebates program, the Company offers rebates for existing and newly constructed multi-family dwellings that meet current ENERGY STAR guidelines or other program requirements and are receiving service on a GS rate schedule.

A rebate under the ThermWise Multi-Family Rebates program is paid directly to a property owner, property manager, or builder for installing a qualifying measure in the qualifying multi-family unit or in a qualifying common area. Qualifying measures are listed below in the ThermWise Multi-Family Rebates Table. This includes the replacement of existing measures as well as first-time installations.

For weatherization and common area appliance measures in existing multi-family dwellings, a Company-provided project analysis must be performed to determine baseline conditions prior to installation of any qualifying measure(s). A post-installation project analysis will be performed to verify that the qualifying measures were installed.

Proof of ENERGY STAR certification will be required before a rebate is paid to a builder for a new ENERGY STAR Multi-Family project.

QUALIFICATION REQUIREMENTS AND REBATE AMOUNTS

To receive a rebate payment, customers must submit a completed application form and any required supporting documentation. The following requirements and rebates to customers are applicable to the program.

2.15 THERMWISE WEATHERIZATION REBATES

PROGRAM DESCRIPTION

Through the ThermWise Weatherization Rebates program, the Company offers a rebate to a customer with a separately metered residence receiving service on a GS rate schedule. A qualifying residence is a separately metered dwelling unit in a structure that has up to and including four separately metered residential dwelling units.

The Thermwise Weatherization Rebates program will include weatherization-efficiency measures listed below in the Weatherization Rebates Table.

WEATHERIZATION EFFICIENCY MEASURES

A rebate for a qualifying weatherization efficiency measure will be offered under this program as shown in the Weatherization Rebates Table. For some measures, a customer will be required to have measures installed by a pre-qualified contractor in order to qualify.

QUALIFICATION REQUIREMENTS AND REBATE AMOUNTS

The following requirements and charges to customers are applicable to the ThermWise Weatherization Rebates program.

To receive a rebate, customers must submit a completed application form and any required supporting documentation. The following requirement and rebate amounts are applicable to the Weatherization Rebates efficiency measures.
