Energy Section

Date: June 22, 2010

Subject: Open a new Docket No. for Questar Gas Company's Cost of Service Study as well as request a date for a Scheduling Conference in the newly created Docket No.

The Commission issued an order on June 3, 2010, approving a Settlement Stipulation in Docket No. 09-057-16. Paragraph 13 of that Settlement Stipulation requested the Commission open a Docket for the purpose of allowing the Company time to update its distribution plant allocation study as well as time for the Parties and the Company to discuss other rate design issues which may arise. The Parties also agreed that any cost of service and rate design issues resolved in the Commission's final order in this newly created Docket maybe used by the Company as a basis for its cost of service and rate design proposal in its next general rate case.

The Division requests that the Commission open a new Docket No. as well as establish a date for a noticed Scheduling Conference under this new Docket No. to all Parties that participated in Docket No. 09-057-16, so that the Parties and the Company may now begin to proceed in this process.
