THAD LEVAR
Deputy Director

PHILIP J. POWLICK
Director, Division of Public Utilities

To: Public Service Commission

From: Division of Public Utilities
Philip Powlick, Director
Energy Section
Artie Powell, Manager
Marlin H. Barrow, Technical Consultant

Date: October 13, 2010

Subject: October 25th Scheduled Technical Conference in Docket No. 10-057-12.

Discussion:

The Utah Division of Public Utilities respectfully requests that the Commission notice to all parties involved in this Docket that, in addition to the first part of the Technical Conference continuing with the listing of additional issues parties may wish to bring forth, the issue of splitting the GS rate class will be open for a more in depth discussion.

The Division would like parties to be prepared to discuss the pros and cons of such a split of the GS class, as well as to discuss possible ways to accomplish a split or define the resulting new classes. In addition, the Division would like parties to be able to address whether, if an initial split into residential and commercial classes makes sense, there are choices regarding splitting commercial customers into several rate classes and choices regarding further refining of residential class definitions.
