

P.S.C.U. Docket No. 13-057-05
Data Request No. 2.01
Requested by Division of Public Utilities
Date of QGC Response August 12, 2013

DPU 2.01 In reference to the infrastructure tracker, please provide copies of the engineering analysis that has been completed for each segment of the feeder line replacement program. This analysis should include information to justify the need for replacement based on specific criteria such as the age or condition of the pipe or other similar factors.

Answer: Attachment DPU 2.01.zip are files containing the engineering analyses completed to determine the appropriate replacement sizes for each tracker eligible feeder line replaced. Please refer to DPU 2.03 for the justification for replacement of each feeder line.
