

P.S.C.U. Docket No. 13-057-05
Data Request No. 2.03
Requested by Division of Public Utilities
Date of QGC Response August 12, 2013

DPU 2.03 Please provide the supporting information used to determine the timing and priority used to schedule specific sections for replacement under the current feeder line program.

Answer: DPU 2.03 Attachment.pdf is the presentation given on April 25, 2012 to the PSC describing the criteria used by Questar Gas to prioritize its feeder line system for replacement. The description includes the factors and how they were used to determine the initial prioritization.

Prepared by: Brad Hasty, General Manager Engineering & Project Management, Questar Gas Company
