Data Request No. 10.06

Requested by Division of Public Utilities

Date of QGC Response September 19, 2013

DPU 10.06 Please provide a listing of each Vintage high pressure feeder line with its corresponding replacement Consequence & Thread ranking analysis. Please provide this with formula intact and working.

Answer: The data request is confidential and will be made available to those parties who agree in writing to comply with the provisions of Utah Admin. Code R746-100-16. DPU 10.06 Attachment.xls contains a schedule of the vintage high pressure feeder lines with the current analysis. This analysis is based upon the DOT requirements set forth in applicable regulations including 49 C.F.R. Part 192. The schedule is reviewed on an ongoing basis and is subject to change depending on factors such as pipeline-integrity testing, customer growth patterns, highly populated areas, and other criteria.
