Re: In the Matter of the Application of Questar Gas Company to Make Tariff  
Modifications to Charge Transportation Customers for Use of Supplier-  
Non-Gas Services

Dear Mr. Widerburg,

The Office of Consumer Services respectfully submits an updated version of the direct testimony of Jerry Mierzwa on behalf of the Office of Consumer Services in Docket 14-057-31.

On July 6, 2015 the Office of Consumer Services received an updated response from Questar to OCS data request to Questar Gas Company 3.02 (3.02U), docket 14-057-31. This updated response reflected a reduction in the gas transportation volumes that were used by Mr. Mierzwa to calculate a volumetric balancing rate. Also, the amended calculation utilizes delivered quantities of annual transport volumes rather than gross deliveries of annual transport volumes.

Attached are amended clean and red-lined versions of OCS-1D Mierzwa Direct. The only change is the dollar rate for a volumetric balancing rate. This number appears three times, once on page 3 and twice on page 11.

Please contact me if you have any questions.

Sincerely,

Gavin Mangelson
