Dear Chris:

Attached please find a copy of the Energy Efficiency Report for the year ended December 31, 2014. This report was designed and prepared based on recommendations from the DPU and Questar Gas for the purpose of providing timely information on Questar Gas' energy-efficiency programs and to assist the Division in monitoring and reporting the status of these programs. The report provides fourth quarter and year-to-date information on participants, costs, and natural gas savings for the Company's energy-efficiency programs.

Spending for the 2014 program year totaled \$26.3 million or 96% of the \$27.5 million Commission approved ThermWise® budget. Actual expenditures in the Appliance, Business Custom, Weatherization, and Low Income Efficiency programs were lower than budgeted due to lower than expected participation. The market transformation expenditures were also lower than expected (67% of budget) in 2014. This was primarily due to lower than projected marketing expenses and the Company's ongoing efforts to secure event and promotional contracts at low rates. The Builder program had expenditures of \$4.09 million which totaled 147% of the 2014 budget. The Business program had expenditures of \$3.19 million or 160% of the 2014 budget. In total, rebate dollars accounted for nearly 78% of total ThermWise® spending in 2014 (73% in 2014 budget) and resulted in annual natural gas savings* of 600,186 decatherms.

If you have any questions, or if we can provide additional information, please contact me.

Sincerely,

Barrie L. McKay
