INSTRUCTIONS FOR FILING FERC FORMS 2, 2-A and 3-Q

GENERAL INFORMATION

I Purpose

FERC Forms 2, 2-A, and 3-Q are designed to collect financial and operational information form natural gas companies subject to the jurisdiction of the Federal Energy Regulatory Commission. These reports are also considered to be a non-confidential public use forms.

II. Who Must Submit

Each natural gas company whose combined gas transported or stored for a fee exceed 50 million dekatherms in each of the previous three years must submit FERC Form 2 and 3-Q.

Each natural gas company not meeting the filing threshold for FERC Form 2, but having total gas sales or volume transactions exceeding 200,000 dekatherms in each of the previous three calendar years must submit FERC Form 2-A and 3-Q.

Newly established entities must use projected data to determine whether they must file the FERC Form 3-Q and FERC Form 2 or 2-A.

III. What and Where to Submit

- (a) Submit Forms 2, 2-A and 3-Q electronically through the submission software at http://www.ferc.gov/docs-filing/eforms/form-2/elec-subm-soft.asp.
- (b) The Corporate Officer Certification must be submitted electronically as part of the FERC Form 2 and 3-Q filings.
- (c) Submit immediately upon publication, by either eFiling or mailing two (2) copies to the Secretary of the Commission, the latest Annual Report to Stockholders and any annual financial or statistical report regularly prepared and distributed to bondholders, security analysts, or industry associations. Do not include monthly and quarterly reports. Indicate by checking the appropriate box on Form 2, Page 3, List of Schedules, if the reports to stockholders will be submitted or if no annual report to stockholders is prepared. Unless eFiling the Annual Report to Stockholders, mail these reports to the Secretary of the Commission at:

Secretary of the Commission Federal Energy Regulatory Commission 888 First Street, NE Washington, DC 20426

- (d) For the Annual CPA certification, submit with the original submission of this form, a letter or report (not applicable to respondents classified as Class C or Class D prior to January 1, 1984) prepared in conformity with the current standards of reporting which will:
 - (i) Contain a paragraph attesting to the conformity, in all material respects, of the schedules listed below with the Commission's applicable Uniform Systems of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and
 - (ii) be signed by independent certified public accountants or an independent licensed public accountant certified or licensed by a regulatory authority of a State or other political subdivision of the U. S. (See 18 C.F.R. §§ 158.10-158.12 for specific qualifications.)

Reference	<u>Reference</u>		
	Schedules Pages		
Comparative Balance Sheet	110-113		
Statement of Income	114-117		
Statement of Retained Earnings	118-119		
Statement of Cash Flows	120-121		
Notes to Financial Statements	122-123		

Filers should state in the letter or report, which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist

- (e) Filers are encouraged to file their Annual Report to Stockholders, and the CPA Certification Statement using eFiling. To further that effort, new selections, "Annual Report to Stockholders" and "CPA Certification Statement," have been added to the dropdown "pick list" from which companies must choose when eFiling. Further instructions are found on the Commission website at http://www.ferc.gov/help/how-to.asp
- (f) Federal, State and Local Governments and other authorized users may obtain additional blank copies of FERC Form 2 and 2-A free of charge from: http://www.ferc.gov/docs-filing/eforms/form-2.pdf and http://www.ferc.gov/docs-filing/eforms/form-2a/form-2a.pdf, respectively. Copies may also be obtained from the Public Reference and Files Maintenance Branch, Federal Energy Regulatory Commission, 888 First Street, NE. Room 2A, Washington, DC 20426 or by calling (202).502-8371

IV. When to Submit:

FERC Forms 2, 2-A, and 3-Q must be filed by the dates:

- (a) FERC Form 2 and 2-A --- by April 18th of the following year (18 C.F.R. §§ 260.1 and 260.2)
- (b) FERC Form 3-Q --- Natural gas companies that file a FERC Form 2 must file the FERC Form 3-Q within 60 days after the reporting quarter (18 C.F.R.§ 260.300), and
- (c) FERC Form 3-Q --- Natural gas companies that file a FERC Form 2-A must file the FERC Form 3-Q within 70 days after the reporting quarter (18 C.F.R. § 260.300).

V. Where to Send Comments on Public Reporting Burden.

The public reporting burden for the Form 2 collection of information is estimated to average 1,623 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data-needed, and completing and reviewing the collection of information. The public reporting burden for the Form 2A collection of information is estimated to average 250 hours per response. The public reporting burden for the Form 3-Q collection of information is estimated to average 165 hours per response.

Send comments regarding these burden estimates or any aspect of these collections of information, including suggestions for reducing burden, to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426 (Attention: Information Clearance Officer); and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 (Attention: Desk Officer for the Federal Energy Regulatory Commission). No person shall be subject to any penalty if any collection of information does not display a valid control number (44 U.S.C. § 3512 (a)).

GENERAL INSTRUCTIONS

- I. Prepare all reports in conformity with the Uniform System of Accounts (USofA) (18 C.F.R. Part 201). Interpret all accounting words and phrases in accordance with the USofA.
- II. Enter in whole numbers (dollars or Dth) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required.) The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting period, and use for statement of income accounts the current year's year to date amounts.
- Complete each question fully and accurately, even if it has been answered in a previous report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page(s) that is not applicable to the respondent, omit the page(s) and enter "NA," "NONE," or "Not Applicable" in column (d) on the List of Schedules, pages 2 and 3.
- V. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" included in the header of each page is to be completed only for resubmissions.
- VI. Generally, except for certain schedules, all numbers, whether they are expected to be debits or credits, must be reported as positive. Numbers having a sign that is different from the expected sign must be reported by enclosing the numbers in parentheses.
- VII For any resubmissions, submit the electronic filing using the form submission only. Please explain the reason for the resubmission in a footnote to the data field.
- VIII. Footnote and further explain accounts or pages as necessary.
- IX. Do not make references to reports of previous periods/years or to other reports in lieu of required entries, except as specifically authorized.
- X. Wherever (schedule) pages refer to figures from a previous period/year, the figures reported must be based upon those shown by the report of the previous period/year, or an appropriate explanation given as to why the different figures were used.
- XI. Report all gas volumes in Dth unless the schedule specifically requires the reporting in another unit of measurement.

DEFINITIONS

- Btu per cubic foot The total heating value, expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60°F if saturated with water vapor and under a pressure equivalent to that of 30°F, and under standard gravitational force (980.665 cm. per sec) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state (called gross heating value or total heating value).
- II. <u>Commission Authorization</u> -- The authorization of the Federal Energy Regulatory Commission, or any other Commission. Name the commission whose authorization was obtained and give date of the authorization.
- III. <u>Dekatherm</u> A unit of heating value equivalent to 10 therms or 1,000,000 Btu.
- IV <u>Respondent</u> The person, corporation, licensee, agency, authority, or other legal entity or instrumentality on whose behalf the report is made.

EXCERPTS FROM THE LAW (Natural Gas Act, 15 U.S.C. 717-717w)

"Sec. 10(a). Every natural-gas company shall file with the Commission such annual and other periodic or special reports as the Commission may by rules and regulations or order prescribe as necessary or appropriate to assist the Commission in the proper administration of this act. The Commission may prescribe the manner and form in which such reports shall be made and require from such natural-gas companies specific answers to all questions upon which the Commission may need information. The Commission may require that such reports include, among other things, full information as to assets and liabilities, capitalization, investment and reduction thereof, gross receipts, interest dues and paid, depreciation, amortization, and other reserves, cost of facilities, costs of maintenance and operation of facilities for the production, transportation, delivery, use, or sale of natural gas, costs of renewal and replacement of such facilities, transportation, delivery, use and sale of natural gas..."

"Section 16. The Commission shall have power to perform all and any acts, and to prescribe, issue, make, amend, and rescind such orders, rules, and regulations as it may find necessary or appropriate to carry out the provisions of this act. Among other things, such rules and regulations may define accounting, technical, and trade terms used in this act; and may prescribe the form or forms of all statements declarations, applications, and reports to be filed with the Commission, the information which they shall contain, and time within they shall be filed..."

General Penalties

The Commission may assess up to \$1 million per day per violation of its rules and regulations. See NGA § 22(a), 15 U.S.C. § 717t-1(a).

or color the trive are show coming 2. Voting conting of color the rule informasso	1. Give the names and addresses of the 10 security holders of the respondent who, at the date of the latest closing of the stock book or compilation of list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes that each could cast on that date if a meeting were held. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.), duration of trust, and principal holders of beneficiary interests in the trust. If the company did not close the stock book or did not compile a list of stockholders within one year prior to the end of the year, or if since it compiled the previous list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders. 2. If any security other than stock carries voting rights, explain in a supplemental statement how such security became vested with voting rights and give other important details concerning the voting rights of such security. State whether voting rights are actual or contingent; if contingent, describe the contingency. 3. If any class or issue of security has any special privileges in the election of directors, trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote. 4. Furnish details concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets any officer, director, associated company, or any of							
1. Give date of the latest closing of the stock book prior to end of year, and, in a footnote, state the purpose of such closing: 2. State the total number of votes cast at the latest general meeting prior to the end of year for election of directors of the respondent and number of such votes cast by proxy. 3. Give the date and place such meeting: Total: By Proxy:						•

Important Changes During the Quarter/Year								

Give details concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Answer each inquiry. Enter "none" or "not applicable" where applicable. If the answer is given elsewhere in the report, refer to the schedule in which it appears.

- 1. Changes in and important additions to franchise rights: Describe the actual consideration and state from whom the franchise rights were acquired. If the franchise rights were acquired without the payment of consideration, state that fact.
- 2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give names of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
- 3. Purchase or sale of an operating unit or system: Briefly describe the property, and the related transactions, and cite Commission authorization, if any was required. Give date journal entries called for by Uniform System of Accounts were submitted to the Commission.
- 4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.
- 5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased and cite Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service.

Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements, etc.

- 6. Obligations incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, including ordinary commercial paper maturing on demand or not later than one year after date of issue: State on behalf of whom the obligation was assumed and amount of the obligation. Cite Commission authorization if any was required.
- 7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
- 8. State the estimated annual effect and nature of any important wage scale changes during the year.
- 9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
- 10. Describe briefly any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
- 11. Estimated increase or decrease in annual revenues caused by important rate changes: State effective date and approximate amount of increase or decrease for each revenue classification. State the number of customers affected.
- 12. Describe fully any changes in officers, directors, major security holders and voting powers of the respondent that may have occurred during the reporting period.
- 13. In the event that the respondent participates in a cash management program(s) and its proprietary capital ratio is less than 30 percent please describe the significant events or transactions causing the proprietary capital ratio to be less than 30 percent, and the extent to which the respondent has amounts loaned or money advanced to its parent, subsidiary, or affiliated companies through a cash management program(s). Additionally, please describe plans, if any to regain at least a 30 percent proprietary ratio.

Notes to Financial Statements						

- 1. Provide important disclosures regarding the Balance Sheet, Statement of Income for the Year, Statement of Retained Earnings for the Year, and Statement of Cash Flow, or any account thereof. Classify the disclosures according to each financial statement, providing a subheading for each statement except where a disclosure is applicable to more than one statement. The disclosures must be on the same subject matters and in the same level of detail that would be required if the respondent issued general purpose financial statements to the public or shareholders.
- 2. Furnish details as to any significant contingent assets or liabilities existing at year end, and briefly explain any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or a claim for refund of income taxes of a material amount initiated by the utility. Also, briefly explain any dividends in arrears on cumulative preferred stock.
- 3. Furnish details on the respondent's pension plans, post-retirement benefits other than pensions (PBOP) plans, and post-employment benefit plans as required by instruction no. 1 and, in addition, disclose for each individual plan the current year's cash contributions. Furnish details on the accounting for the plans and any changes in the method of accounting for them. Include details on the accounting for transition obligations or assets, gains or losses, the amounts deferred and the expected recovery periods. Also, disclose any current year's plan or trust curtailments, terminations, transfers, or reversions of assets. Entities that participate in multiemployer postretirement benefit plans (e.g. parent company sponsored pension plans) disclose in addition to the required disclosures for the consolidated plan, (1) the amount of cost recognized in the respondent's financial statements for each plan for the period presented, and (2) the basis for determining the respondent's share of the total plan costs
- 4. Furnish details on the respondent's asset retirement obligations (ARO) as required by instruction no. 1 and, in addition, disclose the amounts recovered through rates to settle such obligations. Identify any mechanism or account in which recovered funds are being placed (i.e. trust funds, insurance policies, surety bonds). Furnish details on the accounting for the asset retirement obligations and any changes in the measurement or method of accounting for the obligations. Include details on the accounting for settlement of the obligations and any gains or losses expected or incurred on the settlement.
- 5. Provide a list of all environmental credits received during the reporting period.
- 6. Provide a summary of revenues and expenses for each tracked cost and special surcharge.
- 7. Where Account 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these item. See General Instruction 17 of the Uniform System of Accounts.
- 8. Explain concisely any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.
- 9. Disclose details on any significant financial changes during the reporting year to the respondent or the respondent's consolidated group that directly affect the respondent's gas pipeline operations, including: sales, transfers or mergers of affiliates, investments in new partnerships, sales of gas pipeline facilities or the sale of ownership interests in the gas pipeline to limited partnerships, investments in related industries (i.e., production, gathering), major pipeline investments, acquisitions by the parent corporation(s), and distributions of capital.
- 10. Explain concisely unsettled rate proceedings where a contingency exists such that the company may need to refund a material amount to the utility's customers or that the utility may receive a material refund with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects and explain the major factors that affect the rights of the utility to retain such revenues or to recover amounts paid with respect to power and gas purchases.
- 11. Explain concisely significant amounts of any refunds made or received during the year resulting from settlement of any rate proceeding affecting revenues received or costs incurred for power or gas purchases, and summarize the adjustments made to balance sheet, income, and expense accounts.
- 12. Explain concisely only those significant changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.
- 13. For the 3Q disclosures, respondent must provide in the notes sufficient disclosures so as to make the interim information not misleading. Disclosures which would substantially duplicate the disclosures contained in the most recent FERC Annual Report may be omitted.
- 14. For the 3Q disclosures, the disclosures shall be provided where events subsequent to the end of the most recent year have occurred which have a material effect on the respondent. Respondent must include in the notes significant changes since the most recently completed year in such items as: accounting principles and practices; estimates inherent in the preparation of the financial statements; status of long-term contracts; capitalization including significant new borrowings or modifications of existing financing agreements; and changes resulting from business combinations or dispositions. However were material contingencies exist, the disclosure of such matters shall be provided even though a significant change since year end may not have occurred.
- 15. Finally, if the notes to the financial statements relating to the respondent appearing in the annual report to the stockholders are applicable and furnish the data required by the above instructions, such notes may be included herein.

GENERAL NOTES:

BASIS OF PRESENTATION

These financial statements are prepared in accordance with the requirements of the Federal Energy Regulatory Commission (FERC) as set forth in its applicable Uniform System of Accounts (USofA) and published accounting releases, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). The principal differences from GAAP include:

a) As a single-member limited liability company, Questar Pipeline, LLC (Questar Pipeline or Respondent) is not a taxable entity for income tax purposes. Respondent is treated as a component of its parent, Dominion Midstream Partners, LP (Dominion Midstream), a pass-through entity for U.S. federal and state income tax purposes. The partners in Dominion Midstream are taxed directly on their share of income without regard to distributions, and the partners may generally deduct their share of any losses. However, in accordance with FERC requirements, the accompanying financial

Name of Respondent	This Report is:	Date of Report	Year/Period of Report				
·	(1) X An Original	(Mo, Da, Yr)					
Questar Pipeline, LLC	(2) _ A Resubmission	05/02/2017	2016/Q4				
Notes to Financial Statements							

statements include entries to reflect income taxes as if Respondent were a corporation. At December 31, 2016 current income tax benefit in the amount of \$1.4 million has been reflected as an adjustment to other paid-in capital (Partner's Equity).

Deferred tax assets and liabilities for a jurisdiction are reported separately rather than being netted and reported as a single amount. Deferred taxes are recorded in Accounts 190-Accumulated Deferred Income Taxes, 282-Accumulated Deferred Income Taxes-Other Property, or 283-Accumulated Deferred Income Taxes-Other, as appropriate.

- b) Where uncertainties exist with respect to income tax positions involving temporary differences, Questar Pipeline has recorded accumulated deferred income taxes based on the positions taken in the tax returns filed or expected to be filed.
- c) For FERC purposes, the provision for future cost of removal is included in accumulated depreciation and not as a regulatory liability.
- d) For GAAP purposes, the value of Fuel Retained is booked on a gross basis to revenue and purchased gas expense. For FERC purposes the value of Fuel Retained is reflected in functional Account 805-Other Gas Purchases with the offset in Account 805-Other Gas Purchases.
- e) For GAAP purposes, regulatory assets and liabilities are classified as current and noncurrent. For FERC purposes, regulatory assets and liabilities are recorded in accounts 182.3-Other Regulatory Assets and 254-Other Regulatory Liabilities, respectively, with no distinction between current and noncurrent.
- f) Subsidiaries are reflected using the equity method of accounting for FERC purposes, whereas GAAP requires that all majority-owned subsidiaries over which an entity exercises control be consolidated.
- g) Advances to subsidiaries are reported as investments for FERC purposes, whereas GAAP requires that they be classified as notes receivable.
- h) The accompanying financial statements do not include a reconciliation of other comprehensive income or AOCI. In accordance with the requirements of FERC, the Statements of Accumulated Comprehensive Income and Hedging Activities, included on pages 117, are not considered to be part of the basic financial statements.

Note 1. Nature of Operations

FERC FORM NO. 2/3-Q (REV 12-07)	122.2	

Name of Respondent	This Report is:	Date of Report	Year/Period of Report	
·	(1) X An Original	(Mo, Da, Yr)		
Questar Pipeline, LLC	(2) A Resubmission	05/02/2017	2016/Q4	
Notes to Financial Statements				

Prior to the transactions discussed below, Questar Pipeline Company was a wholly-owned corporate subsidiary of Questar Corporation. On January 31, 2016, Questar Corporation entered into an agreement and plan of merger that would result in Questar Corporation becoming a wholly-owned subsidiary of Dominion Resources, Inc. (Dominion). On May 13, 2016, shareholders of Questar Corporation approved the merger.

In August 2016, in contemplation of the merger, Questar Pipeline Company converted to a single-member limited liability company and changed its name from Questar Pipeline Company to Questar Pipeline, LLC. Additionally, in August 2016, Questar Pipeline was reorganized and it distributed 100% of the issued and outstanding capital stock of Questar Southern Trails Pipeline Company and Questar InfoComm, Inc. to Questar Corporation. On September 16, 2016, Dominion completed the acquisition of Questar Corporation for \$4.4 billion. Upon closing of the acquisition, Questar Corporation changed its name from Questar Corporation to Dominion Questar Corporation (Dominion Questar). On December 1, 2016, Dominion Midstream acquired Questar Pipeline and its subsidiaries from Dominion for total consideration of \$1.29 billion.

Questar Pipeline owns and operates interstate natural gas pipelines and storage facilities in the western United States. As a "natural gas company" under the Natural Gas Act of 1938, Questar Pipeline is regulated by FERC. Questar Pipeline is headquartered in Salt Lake City, Utah.

Note 2. Significant Accounting Policies

General

Questar Pipeline makes certain estimates and assumptions in preparing its financial statements in accordance with the USofA. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses for the periods presented. Actual results may differ from those estimates.

Operating Revenue

Operating revenue is recorded on the basis of services rendered, commodities delivered or contracts settled and includes amounts yet to be billed to customers. The straight-fixed-variable rate design used by Questar Pipeline allows for recovery of substantially all fixed costs in the demand or reservation charge and reduces the earnings impact of volume changes on gas-transportation operations. Questar Pipeline may collect revenues subject to possible refunds and establish reserves pending final orders from regulatory agencies. Customer receivables at December 31, 2016 and 2015 included \$13.7 million and \$13.6 million, respectively, of accrued unbilled revenue based on estimated amounts of natural gas delivered but not yet billed to its customers. Operating revenue consists primarily of transmission sales and service activities.

Purchased Gas - Deferred Costs

The difference between purchased gas expenses and the related levels of recovery for these expenses in current rates are deferred and matched against recoveries in future periods. The deferral of costs in excess of current period fuel rate recovery is recognized as a regulatory asset, while rate recovery in excess of current period fuel expenses is recognized as a regulatory liability.

Cash and Cash Equivalents

Current banking arrangements generally do not require checks to be funded until they are presented for payment. At December 31, 2016 and 2015, accounts payable included \$0.6 million and \$0.3 million, respectively, of checks outstanding but not yet presented for payment. For purposes of the Statement of Cash Flows, Respondent considers cash and cash equivalents to include cash on hand, cash in banks and temporary investments purchased with an original maturity of three months or less.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report		
·	(1) X An Original	(Mo, Da, Yr)			
Questar Pipeline, LLC	(2) A Resubmission	05/02/2017	2016/Q4		
Notes to Financial Statements					

Investments in Subsidiary Companies

Questar Pipeline uses the equity method to account for its investment in subsidiary companies for FERC purposes. The investments in subsidiary companies on Questar Pipeline's balance sheet equal its proportionate share of equity reported by the subsidiary companies. Investments in subsidiary companies are assessed for possible impairment when events indicate that the fair value of the investment may be below the Respondent's carrying value. When such a condition is deemed to be other-than-temporary, and the write-down is approved for FERC purposes, the carrying value of the investment is written down to its fair value, and the amount of the write-down is included in the determination of net income.

Questar Pipeline owns 50% of White River Hub, LLC (White River Hub), a FERC-regulated transporter of natural gas, and is the operator. Under the definitions in the USofA, White River Hub is a subsidiary company for FERC reporting purposes.

Property, Plant and Equipment

Property, plant and equipment is recorded at original cost. Capitalized costs include labor, materials and other direct and indirect costs such as asset retirement costs, Allowance for Funds Used During Construction (AFUDC) and overhead costs. The cost of repairs and maintenance, including minor additions and replacements, is charged to expense as it is incurred.

The undepreciated cost of utility gas property, less salvage value, is generally charged to accumulated depreciation at retirement with gains and losses recorded on the sales of property.

Depreciation of property, plant and equipment is computed on the straight-line method based on projected service lives. Gains and losses on asset disposals are recorded as adjustments in accumulated depreciation. The average depreciation and amortization rate was 3.1% for both years ended December 31, 2016 and 2015.

Impairment of Long-Lived Assets

Questar Pipeline performs an evaluation for impairment whenever events or changes in circumstances indicate that the carrying amount of long-lived assets may not be recoverable.

Regulatory Assets and Liabilities

For regulated businesses subject to federal cost-of-service rate regulation, regulatory practices that assign costs to accounting periods may differ from accounting methods generally applied by non-regulated companies. When it is probable that regulators will permit the recovery of current costs through future rates charged to customers, these costs that otherwise would be expensed by non-regulated companies are deferred as regulatory assets. Likewise, regulatory liabilities are recognized when it is probable that regulators will require customer refunds through future rates or when revenue is collected from customers for expenditures that have yet to be incurred. Generally, regulatory assets and liabilities are amortized into income over the recovery period authorized by the regulator.

Questar Pipeline evaluates whether or not recovery of its regulatory assets through future rates is probable and makes various assumptions in its analyses. The expectations of future recovery are generally based on orders issued by regulatory commissions, legislation or historical experience, as well as discussions with applicable regulatory authorities and legal counsel. If recovery of a regulatory asset is determined to be less than probable, it will be written off in the period such assessment is made.

Questar Pipeline records regulatory assets and liabilities for gas imbalances, fuel over- or under-recovered, revenues subject to sharing with customers, and annual charges from the FERC. They recover the costs of assets but do not generally receive a return on these assets.

Inventories

FERC FORM NO. 2/3-Q (REV 12-07)	122.4

Materials and supplies inventories are valued primarily using the weighted-average cost method.

Debt Issuance Costs

Questar Pipeline defers and amortizes debt issuance costs and debt premiums or discounts over the expected lives of the respective debt issues, considering maturity dates and, if applicable, redemption rights held by others. Deferred debt issuance costs are recorded as an asset in Account 181-*Unamortized Debt Expense* in the Balance Sheet.

Natural Gas Imbalances

Natural gas imbalances occur when the physical amount of natural gas delivered from, or received by, a pipeline system or storage facility differs from the scheduled amount of natural gas to be delivered or received. Questar Pipeline values these imbalances due to or from shippers at an appropriate period-end index price subject to the terms of its tariff. Imbalances are settled in-kind and in cash. Imbalances due from others are reported in Account 174-Miscellaneous Current and Accrued Assets and imbalances owed to others are reported in Account 242-Miscellaneous Current and Accrued Liabilities.

Asset Retirement Obligations (AROs)

Questar Pipeline recognizes AROs at fair value as incurred or when sufficient information becomes available to determine a reasonable estimate of the fair value of future retirement activities to be performed, for which a legal obligation exists. These amounts are generally capitalized as costs of the related tangible long-lived assets. Since relevant market information is not available, fair value is estimated using discounted cash flow analyses. Periodically, the Respondent evaluates the key assumptions underlying its AROs including estimates of the amounts and timing of future cash flows associated with retirement activities. AROs are adjusted when significant changes in these assumptions are identified. Questar Pipeline reports accretion of AROs and depreciation on asset retirement costs associated with its natural gas pipeline assets as an adjustment to the related regulatory liabilities when revenue is recoverable from customers for AROs.

New Accounting Standard

In May 2014, the Financial Accounting Standards Board issued revised accounting guidance for revenue recognition from contracts with customers. The core principle of this revised accounting guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The amendments in this update also require disclosure of the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. For Questar Pipeline, the revised accounting guidance is effective for interim and annual periods beginning January 1, 2018.

Questar Pipeline has completed the preliminary stages of evaluating the impact of this guidance and, pending evaluation of the item discussed below, expect no significant impact on its results of operations. Now that the preliminary evaluation is complete, Questar Pipeline will expand the scope of its assessment to include all contracts with customers. In addition, Questar Pipeline is considering certain issues including recognition of revenue in contracts with variable consideration. Questar Pipeline intends to apply the standard using the modified retrospective method as opposed to the full retrospective method.

Note 3. Income Taxes

Effective December 1, 2016, as a result of the acquisition by Dominion Midstream, Questar Pipeline is now treated as a component of Dominion Midstream, a pass-through entity for U.S. federal and state income tax purposes that is generally not subject to income taxes. As discussed in the General Notes: Basis of Presentation, item a), in accordance with FERC policy, the accompanying financial statements include entries to reflect income taxes as if Questar Pipeline were a corporation.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report		
·	(1) X An Original	(Mo, Da, Yr)			
Questar Pipeline, LLC	(2) _ A Resubmission	05/02/2017	2016/Q4		
Notes to Financial Statements					

In August 2016, when Questar Pipeline converted to a single-member limited liability company, it became a disregarded entity for income tax purposes and was treated as a taxable division of its corporate parent. Its business activities from this time through September 16, 2016, the closing date of Dominion's acquisition of Dominion Questar, will be included in the consolidated U.S. federal and certain state income tax returns of Dominion Questar. Questar Pipeline's business activities from September 16, 2016 through November 2016 will be included in the consolidated U.S. federal and certain state income tax returns of Dominion.

Prior to Dominion Midstream's acquisition of Questar Pipeline in December 2016, Questar Pipeline participated in Dominion's intercompany tax sharing agreement. In November 2016, Questar Pipeline cash settled \$0.3 million of income taxes payable. Questar Pipeline's participation in the intercompany tax sharing agreement was terminated in connection with Dominion Midstream's acquisition of Questar Pipeline.

Prior to Dominion's acquisition of Dominion Questar, Questar Pipeline participated in Dominion Questar's intercompany tax sharing agreement. In September 2016, Questar Pipeline cash settled \$2.9 million of income taxes payable. Questar Pipeline's participation in the intercompany tax sharing agreement was terminated in connection with Dominion's acquisition of Dominion Questar.

Current income taxes for Questar Pipeline were based on taxable income or loss, determined on a separate company basis, and where applicable, settled in accordance with the principles of both Dominion Questar's and Dominion's intercompany tax sharing agreements prior to Dominion Midstream's acquisition of Questar Pipeline. The settlements of Questar Pipeline's federal and state income taxes payable are reflected as equity transactions in the financial statements. Approximately 40% of the deferred taxes associated with plant basis differences were recognized by Dominion as a result of Dominion Midstream's partially taxable acquisition of Questar Pipeline. The decrease in plant related deferred taxes reflects a change in the tax bases of Questar Pipeline's assets, and is reflected as an equity transaction.

Details of income tax expense for the years ended December 31, 2016 and 2015 are as follows:

(millions)		2016	2015
Current			
Federal	\$	7.8	\$ 9.3
State		1.4	1.0
Total Current		9.2	10.3

Note 4. Asset Retirement Obligations

AROs represent legal obligations that result from laws, statutes, contracts and regulations related to the eventual retirement of certain long-lived assets. At December 31, 2016, Questar Pipeline's AROs reflected on its financial statements were primarily associated with interim retirements of natural gas transmission pipeline components.

Upon acquisition by Dominion, as described in Note 1, a revision was made to reflect the interim retirement of natural gas transmission pipeline components. As a result of this change, during the third quarter of 2016, Questar Pipeline recorded an increase of \$12.7 million to 101-*Gas Plant in Service* and an increase of \$12.7 million to 230-*Asset Retirement Obligations*. Questar Pipeline also recorded an increase of \$25 million to 254-*Other Regulatory Liabilities* and a decrease of \$0.2 million to 108-*Accumulated Provision for Depreciation* for collections in excess of pipeline ARO.

(millions)	
AROs at December 31, 2015	\$ 1.8
Revision in estimated cash flows	12.7
Accretion	0.2
AROs at December 31, 2016	\$ 14.7

Questar Pipeline has also identified, but not recognized, AROs related to the retirement of its storage wells in its underground natural gas storage network as it currently does not have sufficient information to estimate a reasonable range of expected retirement dates for these assets since the economic lives of these assets can be extended indefinitely through regular repair and maintenance. Questar Pipeline currently does not have any plans to retire these assets and AROs will not be reflected in the financial statements until sufficient information becomes available to determine a reasonable estimate of the fair value of the activities to be performed. Questar Pipeline continues to monitor operational and strategic developments to identify if sufficient information exists to reasonably estimate a retirement date for these

coupon							

Questar Pipeline's long-term debt agreements contain customary covenants and default provisions. At December 31, 2016, there were no events of default under these covenants.

Note 6. Employee Benefit Plans

In November 2016, all Questar Pipeline employees were transferred to QPC Services Company. See Note 1 for further details. QPC Services Company charges Questar Pipeline for all employee related expenses. Prior to November 2016, Questar Pipeline participated in retirement benefit plans sponsored by Dominion Questar, which provide certain retirement benefits to eligible active employees, retirees and qualifying dependents. Under the terms of its benefit plans, Dominion Questar reserves the right to change, modify or terminate the plans. From time to time in the past, benefits have changed, and some of these changes have reduced benefits.

Pension benefits for employees were covered by the Dominion Questar Corporate Retirement Plan, a defined benefit pension plan sponsored by Dominion Questar that provides benefits to multiple Dominion Questar subsidiaries. Retirement benefits payable are based primarily on years of service, age and the employee's compensation. As a participating employer, Questar Pipeline was subject to Dominion Questar's funding policy, which is to contribute annually an amount that is in accordance with the provisions of ERISA. During 2016, Questar Pipeline made \$2.7 million of contributions to the Dominion Questar Pension Plan, and no contributions to this plan are currently expected in 2017. Net periodic pension cost related to this plan was \$2.1 million and \$3.4 million in 2016 and 2015, respectively. The funded status of various Dominion Questar subsidiary groups and employee compensation are the basis for determining the share of total pension costs for participating Dominion Questar subsidiaries. At December 31, 2015, the amount due from Dominion Questar associated with this plan was \$28.0 million recorded in receivable from affiliates on the Balance Sheet.

Retiree healthcare and life insurance benefits for employees were covered by the Dominion Questar Corporation Umbrella Health

Name of Respondent	This Report is:	Date of Report	Year/Period of Report
·	(1) X An Original	(Mo, Da, Yr)	
Questar Pipeline, LLC	(2) A Resubmission	05/02/2017	2016/Q4
	Notes to Financial Statements		

Plan, a plan sponsored by Dominion Questar that provides certain retiree healthcare and life insurance benefits to multiple Dominion Questar subsidiaries. Annual employee premiums are based on several factors such as retirement date and years of service. Net periodic benefit (credit) cost related to this plan was \$(0.5) million and \$(0.4) million for 2016 and 2015, respectively. Employee headcount is the basis for determining the share of total other postretirement benefit costs for participating Dominion Questar subsidiaries. The amount due to Dominion Questar at December 31, 2015 associated with this plan was \$10.1 million and is included in receivables from affiliates on the Balance Sheet.

Dominion Questar holds investments in trusts to fund employee benefit payments for the pension and other postretirement benefit plans in which employees serving Questar Pipeline through QPC Services Company participate. Any investment-related declines in these trusts will result in future increases in the net periodic cost recognized for such employee benefit plans and will be included in the determination of the amount of cash that QPC Services Company will provide to Dominion Questar for its share of employee benefit plan contribution.

Defined Contribution Plan

Questar Pipeline also participated in a Dominion Questar-sponsored defined contribution plan, the Dominion Questar 401(k) Retirement Income Plan, which covers multiple Dominion Questar subsidiaries. Questar Pipeline recognized \$1.4 million and \$1.5 million of expense in 2016 and 2015, respectively, as employer matching contributions to these plan.

Share-based Compensation

Prior to Dominion's acquisition of Dominion Questar, Questar Pipeline employees participated in certain share-based compensation plans of Dominion Questar. Effective at the acquisition date, all such awards vested on September 16, 2016. Questar Pipeline had no share-based compensation balances as of December 31, 2016. Total share-based compensation expense amounted to \$3.9 million in 2016 compared to \$2.0 million in 2015.

Note 7. Commitments and Contingencies

As a result of issues generated in the ordinary course of business, Questar Pipeline may be periodically involved in legal proceedings before various courts and periodically subject to governmental examinations (including by FERC), inquiries and investigations. Certain legal proceedings and governmental examinations involve demands for unspecified amounts of damages, are in an initial procedural phase, involve uncertainty as to the outcome of pending appeals or motions, or involve significant factual issues that need to be resolved, such that it is not possible for Questar Pipeline to estimate a range of possible loss. For such matters that Questar Pipeline cannot estimate, a statement to this effect is made in the description of the matter. Other matters may have progressed sufficiently through the litigation or investigative processes such that Questar Pipeline is able to estimate a range of possible loss. For legal proceedings and governmental examinations for which Questar Pipeline is able to reasonably estimate a range of possible losses, an estimated range of possible loss is provided, in excess of the accrued liability (if any) for such matters. Estimated ranges of loss are inclusive of legal fees and net of any anticipated insurance recoveries. Any estimated range is based on currently available information and involves elements of judgment and significant uncertainties. Any accrued liability is recorded on a gross basis with a receivable also recorded for any probable insurance recoveries. Any estimated range of possible loss may not represent Questar Pipeline's maximum possible loss exposure. The circumstances of such legal proceedings and governmental examinations will change from time to time and actual results may vary significantly from the current estimate. Management does not anticipate that the liabilities, if any, arising from such proceedings would have a material effect on Questar Pipeline's financial position, liquidity or results of operations.

Note 8. Related Party Transactions

Questar Pipeline engages in related party transactions primarily with its subsidiaries and affiliates. Questar Pipeline receivable and payable balances with affiliates are settled based on contractual terms or on a monthly basis, depending on the nature of the underlying transactions. Questar Pipeline participates in certain Dominion Questar benefit plans as described in Note 6. Questar Pipeline participated in intercompany tax sharing agreements prior to Dominion Midstream's acquisition of Questar Pipeline as described in Note 3.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report									
·	(1) X An Original	(Mo, Da, Yr)										
Questar Pipeline, LLC	(2) A Resubmission	05/02/2017	2016/Q4									
	Notes to Financial Statements											

Transactions with Subsidiaries

Questar Pipeline provides and purchases goods and services to and from its subsidiaries in the ordinary course of business.

Presented below are significant transactions with subsidiaries:

Year Ended December 31,	2016	2015
(millions)		
Services provided to subsidiaries	\$ 9.7	\$ 10.6
Goods and services provided by subsidiaries to Questar Pipeline	6.8	9.0

Transactions with affiliates

Subsequent to Dominion's acquisition of Dominion Questar, Dominion Resources Services, Inc. (DRS) and other Dominion affiliates provide accounting, legal, finance and certain administrative and technical services to Questar Pipeline while QPC Services Company provides human resources and operations services to the Respondent. Subsequent to Dominion's acquisition of Dominion Questar on September 16, 2016, the financial statements presented include costs for certain general, administrative and corporate expenses assigned by DRS and QPC Services Company to Questar Pipeline on the basis of direct and allocated methods in accordance with Questar Pipeline's services agreement with DRS and QPC Services Company. Where costs incurred cannot be determined by specific identification, the costs are allocated based on the proportional level of effort devoted by DRS or QPC Services Company resources that are attributable to the Respondent, determined by reference to number of employees, salaries and wages and other similar measures for the relevant DRS or QPC Services Company service. Management believes the assumptions and methodologies underlying the allocation of general corporate overhead expenses are reasonable. Amounts payable to QPC Services Company at December 31, 2016 was \$2.5 million. The amounts payable to DRS at December 31, 2016 was immaterial. Prior to Dominion's acquisition of Dominion Questar, Dominion Questar provided administrative, accounting, legal and data-processing support to the Respondent, Additionally, Questar Gas Company continues to provide technical. operational and construction services to Questar Pipeline, and Questar Overthrust Pipeline, LLC and White River Hub provide natural gas transportation services to the Respondent.

The amounts of these services follow.

Year Ended December 31,	2016	2015
(millions)		
Sales of natural gas transportation and storage services to affiliates	\$ 72.9	\$ 73.1
Commodity sales to affiliates		1.4
Services provided to affiliates	10.3	13.6
Goods and services provided by affiliates to Questar Pipeline	31.5	21.5

Contributions from Dominion

In November 2016, Dominion contributed \$1.0 million in cash to Questar Pipeline to fund operations.

Natural Gas Imbalances

Questar Pipeline maintains natural gas imbalances with subsidiaries and affiliates. These imbalances are provided below:

At December 31,	2016	2015
(millions)		
Imbalances payable to subsidiaries and affiliates	\$ 0.3	\$ 0.5
Imbalances receivable from subsidiaries and affiliates	\$ 0.1	\$

Interest Income and Expense

· · · · · · · · · · · · · · · · · · ·		
FERC FORM NO. 2/3-Q (REV 12-07)	122.10	

Name of Respondent	This Report is:	Date of Report	Year/Period of Report									
·	(1) X An Original	(Mo, Da, Yr)										
Questar Pipeline, LLC	(2) A Resubmission	05/02/2017	2016/Q4									
	Notes to Financial Statements											

Questar Pipeline borrowed cash from subsidiaries and affiliates and incurred insignificant interest expense in 2016 and 2015. Questar Pipeline loaned excess funds to subsidiaries and affiliates and earned interest income as follows:

Year ended December 31,	2016	2015
(millions)		
Interest income from subsidiaries	\$ 3.4	\$ 5.3
Interest income from affiliates	1.2	1.8

Credit Agreement

In April 2017, Questar Pipeline entered into a \$150.0 million intercompany revolving credit agreement with Dominion Midstream, of which no amounts are outstanding.

Note 9. Market and Credit Risk

Questar Pipeline's largest customers include Questar Gas Company, PacifiCorp, and EOG Resources, Inc. These three customers provided approximately 61% of Questar Pipeline's 2016 transportation and storage revenue.

Credit risk is the risk of financial loss if counterparties fail to perform their contractual obligations. In order to minimize overall credit risk, credit policies are maintained, including the evaluation of counterparty financial condition. In addition, counterparties may make available collateral, including letters of credit, payment guarantees, or cash deposits. Management believes, based on the Respondent's credit policies, it is unlikely that a material adverse effect on financial position, results of operations or cash flows would occur as a result of counterparty nonperformance.

Note 10. Subsequent Events

Questar Pipeline has evaluated the impact of events occurring after December 31, 2016, up to February 28, 2017, the date that the Dominion Midstream U.S. GAAP financial statements were issued for recognition or disclosure and has updated such evaluation for disclosures purposes through May 2, 2017. These financial statements include all necessary adjustments and disclosures resulting from these evaluations.

General Description of Construction Overhead Procedure							

General Description of Construction Overhead Procedure

- 1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.
- 2. Show below the computation of allowance for funds used during construction rates, in accordance with the provisions of Gas Plant Instructions 3 (17) of the Uniform System of Accounts.
- 3. Where a net-of-tax rate for borrowed funds is used, show the appropriate tax effect adjustment to the computations below in a manner that clearly indicates the amount of reduction in the gross rate for tax effects.
- 1) a) Construction overhead charged to construction represents the indirect labor and administrative costs applied to construction.
 - b) Individual projects are used to accumulate overhead costs. The indirect and administrative costs are then cleared to projects based on the monthly costs charged to the projects.
 - c) Overhead charged to construction is allocated on a per dollar rate. This rate can vary each month depending the amount of overhead accumulated and the dollars charged to construction projects.
 - d) The calculated rate is applied to all types of construction.
 - e) None
 - f) Overhead is directly assigned to each project.
- 2) See page 218a
- 3) Not applicable

Schedule Page: 220 Line No.: 6 Column: b

Inventory in account 117.1 represents the balance of recoverable gas volumes that are necessary to maintain pressure and deliverability requirements for Questar Pipeline's storage facilities. Recoverable base gas is reported under the inventory method.

Schedule Page: 220 Line No.: 6 Column: c

Inventory in account 117.2 represents the balance of system balancing gas volumes for load balancing, no notice transportation, and other operational purposes. System balancing gas is reported under the inventory method.

Schedule Page: 220 Line No.: 6 Column: f

Inventory in account 164.1 represents the balance of pipeline owned gas which the pipeline intends to sell. Pipeline owned gas is reported under the inventory method.

Securities Issued or Assumed and Securities Refunded or Retired During the Year									

1. Furnish a supplemental statement briefly describing security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses. Identify as to Commission authorization numbers and dates.

- 2. Provide details showing the full accounting for the total principal amount, par value, or stated value of each class and series of security issued, assumed, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gain or losses relating to securities retired or refunded, including the accounting for such amounts carried in the respondent's accounts at the date of the refunding or refinancing transactions with respect to securities previously refunded or retired.
- 3. Include in the identification of each class and series of security, as appropriate, the interest or dividend rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares. Give also the issuance of redemption price and name of the principal underwriting firm through which the security transactions were consummated.
- 4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, cite the Commission authorization for the different accounting and state the accounting method.
- 5. For securities assumed, give the name of the company for which the liability on the securities was assumed as well as details of the transactions whereby the respondent undertook to pay obligations of another company. If any unamortized discount, premiums, expenses, and gains or losses were taken over onto the respondent's books, furnish details of these amounts with amounts relating to refunded securities clearly earmarked.

None.

Questar Pipeline, LLC				Resubmission	05/02/2017	End of <u>2016/Q4</u>	
	Unamortiz	ed Loss and Gair	n on Reacquired De	bt (Accounts	189, 257)	-	
 Report under separate subheadings for Unamortized Loss and Unamortized Gain on Reacquired Debt, details of gain and loss, including maturity date, on reacquisition applicable to each class and series of long-term debt. If gain or loss resulted from a refunding transaction, include also the maturity date of the new issue. In column (c) show the principal amount of bonds or other long-term debt reacquired. In column (d) show the net gain or net loss realized on each debt reacquisition as computed in accordance with General Instruction 17 of the Uniform Systems of Accounts. Show loss amounts by enclosing the figures in parentheses. Explain in a footnote any debits and credits other than amortization debited to Account 428.1, Amortization of Loss on Reacquired Debt, or credited to Account 429.1, Amortization of Gain on Reacquired Debt-Credit.

Questar Pipeline, LLC	(2) _ A Resubmission	05/02/2017	2016/Q4
	FOOTNOTE DATA		

Schedule Page: 521 Line No.: 4 Column: e

Allocation method was based on throughput. Applies to lines 11, 18, and 26 also.

Schedule Page: 521 Line No.: 4 Column: i

Shipper Supplied Gas, Gas Consumed in Pipeline Operations, and Net Excess or (Deficiency) balances are valued based on the "Inside FERC's Gas Market Report" first-of-the-month posting for Northwest Pipeline Corp., Rocky Mountains, published for the first of the month following gas flow. Applies to lines 6, 11, 13, 18, and 26 also.

Schedule Page: 521 Line No.: 4 Column: n

In accordance with FERC Order No. 581, Shipper Supplied Gas is not directly charged to an account. Any excess or deficiency in net Shipper Supplied Gas (line 37) is recorded as "Other Regulatory Assets/Liabilities" (Accounts 182.3 / 254) with offsetting entries booked to "Regulatory Debits/Credits", (Accounts 407.3 / .4). Applies to columns (o), (bb), (cc), (pp), and (qq) also.

Schedule Page: 521 Line No.: 6 Column: e

Allocation method was based on actual gas supplied and used. Applies to Line 13 also.

Schedule Page: 521 Line No.: 6 Column: n

In accordance with FERC Order No. 581, Shipper Supplied Gas is not directly charged to an account. Applies to columns (o), (bb), (cc), (pp), and (qq) also.

Schedule Page: 521 Line No.: 18 Column: e

Gas used for M&R Fuel, Mains Fuel, and other Operational Fuel. Applies to all other columns on this line.

Schedule Page: 521 Line No.: 34 Column: e

"Net excess or (deficiency)" balances are refunded or collected in-kind through Questar Pipeline, LLC's annual Fuel Gas Reimbursement and Tracking provision (§12.15) of the General Terms and Conditions of Part I of Questar Pipeline, LLC's FERC Gas Tariff. Applies to columns (s) and (gg) also.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report

Questar Pipeline, LLC	(2) _ A Resubmission	05/02/2017	2016/Q4
	System Mans		

- 1. Furnish five copies of a system map (one with each filed copy of this report) of the facilities operated by the respondent for the production, gathering, transportation, and sale of natural gas. New maps need not be furnished if no important change has occurred in the facilities operated by the respondent since the date of the maps furnished with a previous year's annual report. If, however, maps are not furnished for this reason, reference should be made in the space below to the year's annual report with which the maps were furnished.
- 2. Indicate the following information on the maps:
 - (a) Transmission lines.
 - (b) Incremental facilities.
 - (c) Location of gathering areas.
 - (d) Location of zones and rate areas.
 - (e) Location of storage fields.
 - (f) Location of natural gas fields.
 - (g) Location of compressor stations.
 - (h) Normal direction of gas flow (indicated by arrows).
 - (i) Size of pipe.
 - (j) Location of products extraction plants, stabilization plants, purification plants, recycling areas, etc.
 - (k) Principal communities receiving service through the respondent's pipeline.
- 3. In addition, show on each map: graphic scale of the map; date of the facts the map purports to show; a legend giving all symbols and abbreviations used; designations of facilities leased to or from another company, giving name of such other company.
- 4. Maps not larger than 24 inches square are desired. If necessary, however, submit larger maps to show essential information. Fold the maps to a size not larger then this report. Bind the maps to the report.
