Just a heads up.....foxnewsnow reported you are going to increase our Questar bill by approx \$9.35 Per month with a \$ 12.8 Billion dollar total increase on June 1st! Our country is being overrun by the undocumented and we as Americans are having our rights taken away by whomever decides we can pay for this....elderly and low income covers a large amount of people who may or may not be who the claim to be. Do you have the resources to double check all these people? When is this madness going to stop! Please tell Quester they can't have this increase and to stop spending our hard earned money and benefits recklessly!
