

Qualifications of William F. Schwarzenbach III

Current Responsibilities

As Manager of Gas Supply, I am responsible for managing the gas purchasing and nominations for Dominion Energy. I supervise the activities of daily demand forecasting, gas purchasing for Dominion Energy sales customers, managing cost-of-service supplies, managing gas supplies delivered to the Dominion Energy city gates for transportation customers, managing imbalances with interconnecting pipelines, SENDOUT modeling, and managing the Dominion Energy Integrated Resource Planning (IRP) process. I am also responsible for analysis of transportation, storage, peak-shaving, and no-notice transportation contracts. I have been in the Gas Supply department since 2011.

Prior Responsibilities and Experience

I was first employed by Dominion Energy in 2004 as an Operations Engineer in the Engineering Department. While in the Engineering Department I worked mainly on system planning and analysis that focused on peak-day planning of the Dominion Energy system.

Prior to Dominion Energy, I worked for Washington Gas from 1998-2004 in its engineering department. While with Washington Gas, my primary responsibility was also system design to meet peak-day requirements.

Educational Background

I received a Bachelor of Science degree in Civil Engineering from Virginia Tech in 1998. I received a Masters of Business Administration degree from George Mason University in 2004. I am a registered Professional Engineer (PE) in the State of Utah.
