On behalf of the Office of Consumer Services, we agree with DEU's characterization of the scheduling issues as set forth in #1, below; we support an expedited scheduling conference to be held on November 29th as set forth in #2, below; and do not oppose a scheduling conference next week as set forth in #3, below, but believe that calendars and commitments for next week lead us to prefer the November 29th date for the scheduling conference.

Subject: RE: [External] Docket Nos. 17-057-20 and -21, DPU's Request for Scheduling Conference

All,

The Company responds as follows:

1. The Company believes that the parties have discussed (but not reached agreement upon) a new schedule. We are not aware of a stipulation, but are confident that the parties can reach resolution in a scheduling conference.

2. The Company supports an expedited scheduling conference on November 29th, as stated.
