Sections 11.9 "Operating Requirements" and 11.10 "Limitations Upon Questar's Transportation Obligations" of DEQP's tariff specify; "A Shipper shall use reasonable efforts to deliver and receive gas at uniform hourly and daily flow rates, except as otherwise provided under an FP Addendum"; "On any day, Questar shall not be obligated to deliver to shipper a quantity of gas different from the equivalent volume received from shipper during the same day" and; "Unless shipper has been granted authorized overrun transportation service under any Rate Schedule, quantities of gas nominated by shipper and scheduled by Questar shall not be in excess of the RDC specified in the transportation service agreements. Authorized overrun transportation service will not be granted unless capacity is available and if system integrity is not jeopardized, subject to §§ 9 and 12.13 of the General Terms and Conditions of this Part".</p> <p>Prepared by: Will Schwarzenbach, Manager – Gas Supply</p>
