

Qualifications of Michael L. Gill

Current Responsibilities

As Manager of Engineering, I am responsible for the High-Pressure (HP) Engineering, Intermediate High-Pressure (IHP) Engineering, Integrity Management, Survey and the Design Drafting Departments. My primary responsibility is to oversee the planning, surveying, drafting and design of construction projects on the Company's HP and IHP systems. Additionally, as manager over Integrity Management I am responsible for oversight of the Company's HP and IHP integrity plans.

Experience

I was first employed by Questar Gas Company, now Dominion Energy Utah, in April 2002 and served as the Region Engineer for the Salt Lake, Central and Southern regions from 2002 through 2007. My main responsibilities during that time were to maintain the functionality of the Company's distribution system in these regions, forecast growth and plan future system expansions the HP and IHP systems. In 2007, I was promoted to Lead Engineer of the Company's new HP Design and Project Management Department. I remained in this role through 2013. My responsibilities within this role included oversight of the Company's HP design and construction projects for the entire distribution system, monitoring department budgets and development of department schedules. In 2013, I was promoted to Director of HP Engineering and Design. My responsibilities in this role included oversight of the HP Engineering, Design Drafting and Survey departments. I remained in this role from 2013 through 2017. I assumed my current role of Manager of Engineering in August of 2017.

Prior to my employment at the Company, I was an associate owner at Ensign Engineering in Midvale, Utah.

Educational and Professional Background

I received a Bachelor of Science in Civil Engineering from the University of Utah in 1995. I have been a Utah Professional Engineer since 2000 and a Utah Professional Structural Engineer since 2009.
