On January 31, 2018, Dominion Energy Utah (Dominion) filed an application to decrease the revenue requirement for the infrastructure rate adjustment component of distribution non-gas rates by approximately $2.5 million to reflect the recently approved federal tax rate of 21 percent (Tariff Filing). If approved, Dominion’s Tariff Filing will result in an annual decrease of $1.93, or approximately 0.27 percent, for a typical residential customer using 80 decatherms of natural gas per year. Dominion’s Tariff Filing also proposes modifications to Section 2.07, Page 2-15 of its Utah Natural Gas Tariff PSCU 500 to memorialize the current pre-tax rate of return resulting from the federal tax legislation. Any interested party may submit comments on Dominion’s Tariff Filing on or before Wednesday, February 14, 2018.

DATED at Salt Lake City, Utah, February 1, 2018.

/s/ Melanie A. Reif
Presiding Officer

Attest:

/s/ Gary L. Widerburg
PSC Secretary
