RE: Request to eliminate Dominion Energy Utah's requirement to file its Annual Report with the Division of Public Utilities (DPU)

Dear Commissioners:

On April 15 each year, Dominion Energy Utah (DEU or Company) is required to file an annual report with the Division of Public Utilities. This report details financial and operating results for the Utah jurisdiction during the preceding calendar year. That report for 2018 year-end data is included with this letter.

DEU believes this report is duplicative of other reports filed by the Company during the year. First, the Company provides its financial reports (greybacks) every month. In addition to the greybacks, the Company files its regulated Results of Operations report twice each year. This report is filed by June each year. Both the greybacks and the results of operations report are used frequently by the Commission staff, Division of Public Utilities (Division), and Office of Consumer Services.

The Division staff indicates that it rarely relies on the less-detailed annual report required to be filed. In reviewing the report's requirements, the Company found no Utah statute, administrative rule, or Commission order requiring this report to be prepared or filed. Therefore, DEU respectfully requests that it no longer be required to prepare and file the Division's annual report.

If you have any questions or concerns, please contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kelly B. Mendenhall".
