

August 6, 2019

Attached please find Dominion Energy Utah/Wyomings' Customer Satisfaction Standards Report (CSSR) for the first quarter ended March 2019.

In Docket No. 16-057-01, the Matter of Joint Notice and Application of Questar Gas Company and Dominion Resources, Inc., the parties agreed in paragraph 47 of the settlement stipulation that "Within 120 days of the Effective Time, Dominion Questar Gas will meet with the Division and the OCS on a collaborative basis and update Customer Satisfaction Standards, taking into account recent historical results. Dominion Questar Gas will report quarterly on its performance relative to the Customer Satisfaction Standards. Quarterly reporting will continue until Dominion Questar Gas' next general rate case filing. If the Dominion Questar Gas service levels become deficient, meaning they fall short of the Customer Satisfaction Standards as shown in the report, Dominion Questar Gas will file a remediation plan with the Commission explaining how it will improve and restore service to meet the Customer Satisfaction Standards."

The parties met with the Division and Office of Consumer Services in the 4<sup>th</sup> quarter of 2016 and updated 14 of the standards. This report includes these updated standards. The attached report is for the four quarters ending December 31, 2018 and provides the customer satisfaction results using the goals that were in effect at the beginning of the year.

The first quarter 2019 results are attached as Exhibit 47. There are only two areas where the Company is deficient. Billing metric #1, read each meter monthly, was 94.6% instead of 99% on average. And billing metric #5, "Response time to investigate meter problems and notify customer within 15 business days". This metric was 82% instead of 95%. Both of these are related to the transponder issues that were explained in the January 6<sup>th</sup> technical conference. The transponder replacement program is still expected to be complete in 2019.
