Date: January 31, 2019

FROM: Public Service Commission

Due: February 8, 2019*

SUBJECT: Dominion Energy Utah 19-057-T01

(Company Name, Case Number, etc.)

1/22/2019

19-057-T01

APPLICATION Application of Dominion Energy Utah for Approval of Modifications to
Tariff Section 2.06

This is a request for the Division of Public Utilities (DPU) to provide analysis, evaluation results, and the basis for conclusions and recommendations regarding the following:

_____ Review for Compliance and Make Recommendations

_____ Review Application and Make Recommendations

_____ Analyze the Complaint

_____ Review Notice and Make Recommendations

_____ Review Request for Agency Action and Make Recommendations

_____ Respond in Accordance with the Notice of Filing and Request for Comments

_____ Investigate

X Other – Explanation and Statement of Issues to be Addressed (See Below):

1. Please identify for each Account 191 sub-account whether costs recorded in that sub-account will be re-classified under DEU's proposal, and, if so, how.
2. DEU's application states, "All costs incurred once gas enters the transmission line to the customer would be considered supplier non-gas costs."

Please verify that DEU has captured all applicable costs in the SNG category consistent with the diagram in DEU Exhibit 1.3 - Proposed Pass-Through Rate Classification.

3. DEU's Application states, "In the last Pass-Through filing commodity rates would increase while SNG rates would decrease. There is no change in the total gas cost collected in the

pass-through. Therefore, the overall impact to the typical customer would have stayed the same.”

Please include with your comments any calculations in support of DEU’s conclusion, including an evaluation of how the proposed changes will impact rates for Interruptible Sales customers.

4. DEU Utah Natural Gas Tariff PSCU 500 states at p. 2-13, “Using the procedure established in PSCU Case No. 84-057-07, supplier non-gas cost class allocation levels will be established in general rate cases.”

Please evaluate whether the proposed changes to the classification of SNG and commodity costs would require a change in the SNG allocation procedure in accordance with the PSC’s decision in its April 30, 1985 Final Report and Order on Revenue Deficiency, Rate Design and Cost Allocation, in Docket No. 84-057-07.

5. Please evaluate how the proposed changes will affect the Transportation Imbalance charge.

** The DPU shall respond consistent with the PSC’s January 29, 2019 Scheduling Order and Notice of Hearing.*
