**BEFORE THE PUBLIC SERVICE COMMISSION OF UTAH**

IN THE MATTER OF THE APPLICATION OF DOMINION ENERGY UTAH COMPANY TO IMPLEMENT A SUSTAINABLE TRANSPORTATION AND ENERGY PLAN SURCHARGE	Docket No. 20-057-19  <b>APPLICATION TO IMPLEMENT A STEP SURCHARGE</b>
---	--

Questar Gas Company dba Dominion Energy Utah (Dominion Energy Utah or the Company) respectfully submits this Application to implement the Sustainable Transportation and Energy Plan (STEP) surcharge, in order to effect cost recovery for the program approved by the Utah Public Service Commission (Commission) in its Order Approving Settlement Stipulation dated August 31, 2020 in Docket No. 19-057-33 (Order).

If the Commission grants this Application, typical residential customers using 80 Dth per year will see an increase in their yearly bills of approximately \$0.33. The Company proposes to implement this request by charging the new rates effective November 1, 2020.

In support of this Application, Dominion Energy Utah states:

1. Dominion Energy Utah's Operations. Dominion Energy Utah, a Utah corporation, is a public utility engaged in the distribution of natural gas primarily to customers in the states of Utah and Wyoming. Its Utah public utility activities are regulated by the Commission, and the Company's rates, charges, and general conditions for natural gas service in Utah are set forth in the Company's Utah Natural Gas Tariff No. 500 (Tariff). Copies of the Company's Articles of Incorporation are on file with the Commission. In addition, the Company serves customers in the Franklin County, Idaho area. Under the terms of an agreement between the Commission and the Idaho Public Utilities Commission, the rates for these Idaho customers are determined by the Utah Commission. Volumes for these customers have been included in the Utah volumes.

2. Background: In the Report and Order dated August 31, 2020 in Docket 19-057-33, the Commission approved a Settlement Stipulation between Dominion Energy Utah Company and other parties to provide funding of \$500,000 per year to the Intermountain Industrial Assessment Center (IIAC) for a two year pilot period. Additionally, the Commission determined that in light of the Signatories' agreement at hearing that the STEP Balancing Account, carrying charge, and associated tariff changes should be resolved in a future proceeding. Order at p. 6. If approved, this Application will establish a STEP surcharge to collect \$500,000 annually allocated to all customer classes, and will also establish a STEP balancing account in section 2.18, Sustainable Transportation Energy Plan (STEP). Section 8.07, Calculation of Carrying Charge, has also been updated to include the STEP balancing account in the carrying charge calculations.

3. Calculation of the STEP Surcharge. DEU Exhibits 1.1 through DEU Exhibit 1.5 provide the calculation of the STEP surcharge. DEU Exhibit 1.1 provides the cost of service

allocation of the \$500,000 to the various rate schedules based on the Commission approved cost of service from Docket 19-057-02. The Commission order in that docket contemplates for changes in the Cost of Service allocation percentages in the fall of 2020 and again in the fall of 2021. The Company plans to update the STEP surcharge accordingly when these allocation percentages are adjusted. Exhibit 1.2 provides the rate calculation for each class. The Cost of Service amounts allocated to each class are shown in Column G. The percentage increases necessary to collect the assigned Cost of Service Amount are shown in Column H. The STEP Surcharge rate calculation is shown in Column I.

4. Change in Typical Customer's Bill. The annualized change in rates calculated in this Application results in a \$0.33 or 0.05% increase for a typical GS residential customer using 80 decatherms per year. The projected month-by-month bills for a typical GS residential customer are shown in DEU Exhibit 1.3.

5. Proposed Tariff Sheets. DEU Exhibit 1.4 shows the proposed Tariff sheets, including the new Tariff section 2.18.

6. Final Tariff Sheet. In addition to this STEP Surcharge Application, the Company is also concurrently filing a Pass-Through Application in Docket No. 20-057-14, an Application for an adjustment to the Daily Transportation Imbalance Charge in Docket No. 20-057-15, an Application to adjust the Conservation Enabling Tariff in Docket No. 20-057-16, an Application to adjust the Low Income Assistance/Energy Assistance rate in Docket 20-057-17, and an Application to adjust the Energy Efficiency rate in Docket No. 20-057-18. The Company has requested that these applications all be made effective November 1, 2020. DEU Exhibit 1.5 reflects the final Tariff sheet that would be effective if the Commission approved all of the applications.

7. Exhibits. Dominion Energy Utah submits the following exhibits in support of its request to adjust the Low Income balancing account:

DEU Exhibit 1.1	STEP Surcharge COS Allocation
DEU Exhibit 1.2	STEP Surcharge Calculation
DEU Exhibit 1.3	Effect on Typical GS Customer
DEU Exhibit 1.4	Legislative and Proposed Rate Schedules
DEU Exhibit 1.5	Combined Legislative and Proposed Rate Schedules

WHEREFORE, Dominion Energy Utah respectfully requests the Commission, in accordance with the Order approving the settlement stipulation to provide funding to the IIAC:

1. Enter an order authorizing Dominion Energy Utah to implement rates and charges applicable to its Utah natural gas service that reflect an adjustment for each rate class, as more fully described in this Application; and
2. Authorize Dominion Energy Utah to implement its rates effective November 1, 2020.
3. Approve the Tariff language in Section 2.18 and the modifications to Tariff section 8.07 effective November 1, 2020.

DATED this 30<sup>th</sup> day of September, 2020.

Respectfully submitted,

DOMINION ENERGY UTAH

#### MT CLASSIFICATION PROVISIONS

- (1) Service is used for a municipal gas system owned and operated by a municipality as defined by Utah Code Ann. § 10-1-104(5). The customer must enter into a contract specifying the maximum daily contract demand. If requested, the Company will provide MT customers with its forecast of the maximum daily demand for any contract period. The Company is not obligated to provide service in excess of the maximum daily contract demand.
- (2) Annual load factor is 15% or greater, where load factor is defined to be: Actual or estimated average daily usage is at least 15% of peak winter day.  
$$(\text{Actual or Estimated Annual Use} \div 365 \text{ days}) \div \text{Peak Winter Day} \geq 15\%$$
- (3) If the customer's gas is not delivered to the Company's system, the Company is not obligated to deliver gas to the customer and the balancing provisions described in § 5.06 will apply.
- (4) All sales are subject to any applicable local charges and sales tax stated in § 10.01 and § 10.02.
- (5) Fuel reimbursement of 1.5% applies to all volumes transported, see § 5.01.

- (7) An MT customer will be required to notify the Company before it proposes to extend service beyond the state of Utah or into a service area designated by the Federal Energy Regulatory Commission (FERC) pursuant to 7(f) of the Natural Gas Act. Such service extension will be cause for termination of MT service by the Company, unless it is demonstrated, prior to service extension, that an order has been issued by the FERC, or any other federal, state or local entity potentially exercising regulatory jurisdiction, showing respectively that the Company will not be subject to the regulatory jurisdiction of the FERC or other federal, state or local entity, and, with respect to an order issued by the FERC, that the Company will not lose any Hinshaw status that it may have. The Company may also terminate MT service commenced upon the issuance of any such order described above if the order is stayed or if an administrative or judicial appeal of such order results in a finding that providing the MT service subjects it to the jurisdiction of the FERC, or other federal, state or local entity, or results in a loss of any Hinshaw status it may have.
- (8) Service is only available for cities where the Company does not have a franchise or an existing distribution system.
- (9) For municipal customers with usage on more than one rate schedule, the usage for different rate schedules must be separately metered and subject to the appropriate administrative charge as provided for in the Administrative Charge paragraph of § 5.01.

The Company may also terminate MT service commenced upon the issuance of any such order described above if the order is stayed or if an administrative or judicial appeal of such order results in a finding that providing the MT service subjects it to the jurisdiction of the FERC, or other federal, state or local entity, or results in a loss of any Hinshaw status it may have.
- (8) Service is only available for cities where the Company does not have a franchise or an existing distribution system.

#### MT CLASSIFICATION PROVISIONS

- (1) Service is used for a municipal gas system owned and operated by a municipality as defined by Utah Code Ann. § 10-1-104(5). The customer must enter into a contract specifying the maximum daily contract demand. If requested, the Company will provide MT customers with its forecast of the maximum daily demand for any contract period. The Company is not obligated to provide service in excess of the maximum daily contract demand.
- (2) Annual load factor is 15% or greater, where load factor is defined to be: Actual or estimated average daily usage is at least 15% of peak winter day.  
  

$$(\text{Actual or Estimated Annual Use} \div 365 \text{ days}) \div \text{Peak Winter Day} \geq 15\%$$
- (3) If the customer's gas is not delivered to the Company's system, the Company is not obligated to deliver gas to the customer and the balancing provisions described in § 5.06 will apply.
- (4) All sales are subject to any applicable local charges and sales tax stated in § 10.01 and § 10.02.
- (5) Fuel reimbursement of 1.5% applies to all volumes transported, see § 5.01.
- (6) MT service is not required if it will subject the Company to regulatory jurisdiction by anyone other than the Commission.

- (7) An MT customer will be required to notify the Company before it proposes to extend service beyond the state of Utah or into a service area designated by the Federal Energy Regulatory Commission (FERC) pursuant to 7(f) of the Natural Gas Act. Such service extension will be cause for termination of MT service by the Company, unless it is demonstrated, prior to service extension, that an order has been issued by the FERC, or any other federal, state or local entity potentially exercising regulatory jurisdiction, showing respectively that the Company will not be subject to the regulatory jurisdiction of the FERC or other federal, state or local entity, and, with respect to an order issued by the FERC, that the Company will not lose any Hinshaw status that it may have. The Company may also terminate MT service commenced upon the issuance of any such order described above if the order is stayed or if an administrative or judicial appeal of such order results in a finding that providing the MT service subjects it to the jurisdiction of the FERC, or other federal, state or local entity, or results in a loss of any Hinshaw status it may have.
  
- (8) Service is only available for cities where the Company does not have a franchise or an existing distribution system.
  
- (9) For municipal customers with usage on more than one rate schedule, the usage for different rate schedules must be separately metered and subject to the appropriate administrative charge as provided for in the Administrative Charge paragraph of § 5.01.
  
- (10) The Energy Assistance rate is subject to a maximum of \$50.00 per month and other conditions as specified in § 8.03.

#### MT CLASSIFICATION PROVISIONS

- (1) Service is used for a municipal gas system owned and operated by a municipality as defined by Utah Code Ann. § 10-1-104(5). The customer must enter into a contract specifying the maximum daily contract demand. If requested, the Company will provide MT customers with its forecast of the maximum daily demand for any contract period. The Company is not obligated to provide service in excess of the maximum daily contract demand.
- (2) Annual load factor is 15% or greater, where load factor is defined to be: Actual or estimated average daily usage is at least 15% of peak winter day.  
  

$$(\text{Actual or Estimated Annual Use} \div 365 \text{ days}) \div \text{Peak Winter Day} \geq 15\%$$
- (3) If the customer's gas is not delivered to the Company's system, the Company is not obligated to deliver gas to the customer and the balancing provisions described in § 5.06 will apply.
- (4) All sales are subject to any applicable local charges and sales tax stated in § 10.01 and § 10.02.
- (5) Fuel reimbursement of 1.5% applies to all volumes transported, see § 5.01.

- (7) An MT customer will be required to notify the Company before it proposes to extend service beyond the state of Utah or into a service area designated by the Federal Energy Regulatory Commission (FERC) pursuant to 7(f) of the Natural Gas Act. Such service extension will be cause for termination of MT service by the Company, unless it is demonstrated, prior to service extension, that an order has been issued by the FERC, or any other federal, state or local entity potentially exercising regulatory jurisdiction, showing respectively that the Company will not be subject to the regulatory jurisdiction of the FERC or other federal, state or local entity, and, with respect to an order issued by the FERC, that the Company will not lose any Hinshaw status that it may have. The Company may also terminate MT service commenced upon the issuance of any such order described above if the order is stayed or if an administrative or judicial appeal of such order results in a finding that providing the MT service subjects it to the jurisdiction of the FERC, or other federal, state or local entity, or results in a loss of any Hinshaw status it may have.
  
- (8) Service is only available for cities where the Company does not have a franchise or an existing distribution system.
  
- (9) For municipal customers with usage on more than one rate schedule, the usage for different rate schedules must be separately metered and subject to the appropriate administrative charge as provided for in the Administrative Charge paragraph of § 5.01.
