Dear Chris:

In response to the Division's request for semi-annual results of operations, Questar Gas is providing twelve months ending June 2021 Results of Operations. This Results of Operations is in the same format and uses the same model as previous Results of Operations submitted to the Commission, Division and Committee in the 09-057-16 case. It shows both unadjusted and adjusted results on a system average and a Utah average jurisdictional basis.

The analysis shows the unadjusted results, as measured by return on equity, for Utah in June 2021 was 9.29%, compared to 9.91% in June 2020. Fully adjusted results, as measured by return on equity, for Utah show June 2021 to be 9.32% compared to the 10.72% reported for June 2020. The fully adjusted scenario includes the normalization and annualization adjustments that are consistent with previous Results of Operations and General Rate Cases, as well as other appropriate adjustments such as those necessary to correct accounting entries or remove one time non-recurring events. Detailed descriptions of each adjustment are included in the attached book.

Dominion Energy Utah will continue to provide annual Results of Operations on an ongoing basis. If you or your staff have additional questions concerning these Results of Operations, please call me at 801-324-5929.

Sincerely,
