Re: *Request of the Division of Public Utilities for Enforcement Action under the Natural Gas Pipeline Safety Act against Dominion Energy Utah; Docket No. 21-057-24*

Dear Mr. Mendenhall:

The Public Service Commission (PSC) reviewed Dominion Energy Utah's (DEU) Snow Shelter Inspection and Placement Progress Report ("Snow Shelter Report") filed on December 13, 2022. The Snow Shelter Report states that DEU has completed all necessary inspections and installations of snow shelters. The Snow Shelter Report was filed pursuant to the requirements in the PSC's January 20, 2022 Order Approving Settlement Stipulation in this docket dealing with an enforcement action the Division of Public Utilities (DPU) filed against DEU for an incident that occurred on February 16, 2019 ("Order"). The Order established the measures DEU would take to help reduce the chances of a similar incident happening in the future. Included in those measures was a commitment by DEU to inspect all gas meters in high snowfall areas to determine if any needed additional protection, and place a snow shelter on any identified meter by November 2022.

The PSC also reviewed the comments filed by DPU on January 11, 2023. DPU states that, after auditing and verifying the information DEU submitted in the Snow Shelter Report, DEU satisfied its commitments to inspect meters and install additional snow shelters where needed, as part of a program "to enhance customer safety and [...] help ensure that snow shelters will be installed in all appropriate locations" ¹ Accordingly, DPU recommends the PSC acknowledge the Snow Shelter Report as complying with the Order.

Based on the PSC's review of the Snow Shelter Report and DPU's comments and recommendation, the PSC acknowledges the Snow Shelter Report as complying with the Order.

¹ DPU Comments, at 4.

Acknowledgment Letter from the PSC
Docket No. 21-057-24
