Thank you for your email. It will be filed as a public comment in Docket No. 22-057-16, Dominion Energy Utah's (DEU) pending pass-through application for an adjustment in natural gas service rates and charges, and in Docket No. 22-057-03, DEU's application to increase distribution rates and charges.

Sincerely,

David Clark

Public Service Commission of Utah

I'm sure you are aware that Dominion Energy has increased their natural gas rates by 52% in the last year. Doesn't that seem a little crazy to you for the average consumer? And now they want to raise it again on November 1st?

Who is representing the consumer? Anyone?
