To Whom It May Concern:

My natural gas cost just for a hot water heater and a forced air furnace has increased by 58%!!!! This is outrageous!!

Inflation has gone down to 3% and is holding steady for now and will go down further. What you have done in allowing Dominion Energy to bamboozle you into granting their request for an increase in rates is based on greed, not on rising costs to them in acquiring the natural gas, but in the fact more people are going with clean energy and trying to fight climate change.

I am requesting that you lower the rate that Dominion can charge to be more in line with the ACTUAL inflation rate, plus show us, the consumers, the true cost to Dominion for producing natural gas that does not line the pockets of their CEOs and stock holders. They won't be able to do it because they want to hold or increase their profit margin. IT IS GREED!!

I am outraged and sick and tired of this constant greed of the fossil fuel industry and their lies in raising rates to compensate at our expense for the supposed pandemic losses and the greed of their profit margin to line the pockets of their CEOs and stock holders. YOU ENABLED THEM TO DO SO. THIS NEEDS TO BE CORRECTED AND CORRECTED NOW.

Disgusted,
Carol Ann Kent
