

Docket No. 23-057-16

UAE Questions for December 7, 2023 Tech. Conf.

1. How will Utah customers benefit from Enbridge’s other business units?
2. How will Enbridge’s other business units benefit from operations in Utah?
3. Does either Enbridge Gas or Gazifère have transportation customers? If so, please describe both entities’ relationship with transportation customers.
4. Does Enbridge intend to make changes to transportation service tariffs or otherwise change the relationship between Questar and its transportation customers?
5. Enbridge filings have indicated it will maintain local administration and operations—please elaborate. What functions will stay? What functions do you intend to migrate elsewhere? Billing? Customer service? Regulatory?
6. What sorts of decisions will be “local” and made in Salt Lake City without confirmation or permission from above?
7. If the acquisition is approved, where will Questar Gas’ budgets be planned, and reviewed, and who will approve them?
8. In Joint Application Exhibit 1.0, Enbridge witness Michele Harradence states that “Enbridge is advancing new low-carbon energy technologies—including hydrogen, renewable natural gas, and carbon capture and storage. Enbridge is committed to reducing the carbon footprint of energy delivered by Enbridge companies, and to achieving net zero emissions within Enbridge’s operations by 2050.” (Joint Application Exhibit 1.0, lines 44-47).
 - a. Please discuss how Enbridge views the acquisition of a natural gas LDC to be consistent with its goal to achieving net zero emissions within its operations by 2050. How does Enbridge view the future of natural gas in Utah, given Enbridge’s net- zero corporate goals?
 - b. Please discuss how (or whether) Enbridge intends to utilize renewable natural gas within its Utah operations.
 - c. Please discuss how (or whether) Enbridge intends to advance its interests in hydrogen and carbon capture and storage in its Utah operations.

- d. How does Enbridge interact with transportation customers with respect to its sustainability goals? If/when Enbridge begins mixing hydrogen into its fuel mix, does it intend to require transportation customers to do the same?
- 9. Will Questar's borrowing costs be affected by the transaction? If so, how?
 - 10. Will Questar's access to capital be affected by the transaction? If so, how?
 - 11. Joint Application Exhibit 9.0 provides an organizational chart immediately after closing:
 - a. Where do Enbridge Gas Inc. and Gazifère Inc. fit into the chart?
 - b. Does Enbridge have any current plans to modify this organizational chart after the closing?
 - 12. Are there any impacts/benefits/risks to having the ultimate parent company of Questar Gas Company (Enbridge Inc.) be incorporated in Canada?
