Dear Mr. Mendenhall:

The Public Service Commission (PSC) reviewed Dominion Energy Utah's (DEU) February 14, 2024 filing of its Energy Efficiency Report for the Year Ending December 31, 2023 ("Report").¹ The Report provides 2023 4th quarter and full year totals for DEU's energy efficiency (EE) programs, including program participation, costs, and natural gas savings.

DPU submitted comments on March 13, 2024. DPU recommends the PSC acknowledge that DEU's Report complies with its reporting requirements.² DPU states that DEU administers eight energy efficiency programs including the Low-Income, Market Transformation Initiative (MTI), and six programs under the ThermWise® protocol. According to the Report, DEU spent 94.7% of the 2023 total annual budget. Additionally, the Report indicates participation in the eight programs increased from 281,429 in 2022 to 334,897 in 2023 and the number of participants receiving rebates

¹ DEU is required to file an energy efficiency report with the Division of Public Utilities (DPU) pursuant to DEU's commitments in its January 6, 2011 comments filed in Docket No. 10-057-15.

² See *Application for Approval of the 2011 Year Budget for Energy Efficiency Programs and Market Transformation Initiative*; Docket No. 10-057-15. In its January 6, 2011 comments, DEU agreed to, among other things, provide the Office of Consumer Services and DPU with quarterly reports setting forth data relating to program participation, Dth savings, actual spending, and budgets.

Docket Nos. 22-057-18, 23-057-05, and 24-057-01

increased from 53,429 in 2022 to 54,897 in 2023. The Report also indicates the 2023 deemed energy savings of the EE programs increased from 843,751 to 937,936 Dth.

Based on the PSC's review of DEU's Report and DPU's comments and recommendation, the PSC acknowledges that DEU's Report complies with reporting requirements.

Sincerely,

/s/ Gary L. Widerburg
