

Estimated Gathering Cost per Dth for Future Wells

The owner of transportation pipelines in the region and will perform gathering services for the wells and has advised Wexpro that the cost will be [REDACTED]. Wexpro is negotiating a final agreement.

Estimated Processing and Conditioning Cost per Dth

Wexpro expects that there will be no processing charges associated with these volumes. The owner of the pipelines in the area will sell liquids removed during processing from these volumes for their own benefit and replace any lost Btu value with natural gas, keeping customers whole in the process.
