**BEFORE THE PUBLIC SERVICE COMMISSION OF UTAH**

IN THE MATTER OF THE APPLICATION OF ENBRIDGE GAS UTAH FOR AN ADJUSTMENT TO THE DAILY TRANSPORTATION IMBALANCE CHARGE	Docket No. 24-057-08  <b>SUBMISSION OF SUPPLEMENTAL INFORMATION AND CORRECTED EGU EXHIBITS 1.2 and 1.3</b>
--	--

Questar Gas Company dba Enbridge Gas Utah (“Enbridge Gas” the “Company”) respectfully submits the supplemental information set forth below, and Corrected EGU Exhibits 1.2 and 1.3. The Company respectfully moves the Utah Public Service Commission to accept the supplemental information provided below, to strike the previously-filed EG Exhibits, and to replace it with the attached Corrected EGU Exhibits 1.2 and 1.3.

On June 3, 2024, the Company filed the Application in this matter seeking approval of the modification of the Transportation Imbalance Charge (“TIC”) described therein. It requested an effective date of July 1, 2024. It attached EG Exhibits 1.2 and 1.3 containing legislative and clean versions of the proposed changes to the Company’s Utah Natural Gas Tariff No. 700<sup>1</sup> (“Tariff”). EG Exhibits 1.2, and 1.3 contained incorrect Advice Numbers, and incorrect Section Revision Numbers. The Company therefore offers the following supplemental information and Corrected EGU Exhibit 1.2, and 1.3.

---

<sup>1</sup> Pending Commission Approval of Docket 24-057-T03.

**SUPPLEMENTAL INFORMATION**

***There is Good Cause to Approve the Application in Less Than 30 Days***

Utah Code Ann. §54-3-3 provides,

Unless the Commission otherwise orders, no change shall be made by any public utility in any rate, fare, toll, rental, charge or classification, or in any rule, regulation or contract relating to or affecting any rate, toll, fare, rental, charge, classification or service, or in any privilege or facility, except after 30 days' notice to the commission and to the public as herein provided. . . . The commission for good cause shown may allow changes, without requiring the 30 days' notice herein provided for, by an order specifying the changes so to be made, the time when they shall take effect and the manner in which they shall be filed and published.

Here, the Company has requested approval of the proposed changes in less than the prescribed 30 days, but offers the following evidence of good cause warranting the shorter timeframe.

First, permitting such review will ensure that customers receive the benefit of a significant rate decrease more quickly. As noted in the Application in this docket, the TIC charge is reviewed and adjusted concurrently with every pass-through filing. This docket was filed concurrent with a Pass-Through Application in Docket No. 24-057-09 (the "Pass-Through Application"), seeking the approval of a significant decrease in rates, and it is in the public interest to implement the rate reduction promptly. Specifically, the Company proposed a decrease of \$479,543,728 in its Utah natural gas rates, resulting in an annual rate reduction for a typical Utah customer of \$277.44 (or 29.53%). The Application in this matter was filed in conjunction with the Pass-Through Application.

The Company believes that providing customers with the benefit of the rate reduction proposed in the Pass-Through Application promptly is sufficient good cause to warrant approval of both dockets on July 1, 2024, notwithstanding the slightly shorter timeframe for Commission and public notice.

The Company could have filed these applications a few days earlier to ensure 30 days' notice prior to the requested effective date of July 1, 2024, but doing so would have created confusion and administrative complexities. Specifically, on June 1, 2024, the Transaction described in Docket No. 23-057-16 closed and Enbridge Gas became a subsidiary of Enbridge Quail Holdings LLC. Commensurate with this closing, Enbridge Gas ceased doing business as "Dominion Energy Utah" and commenced doing business as "Enbridge Gas Utah" in Utah. For convenience, the Company concurrently filed the Application in this docket, the Pass-Through Application, and an application in Docket No. 24-057-T03 seeking to modify its name on its Utah Natural Gas Tariff. The Company also concurrently filed a Motion to implement Step 3 Rates in Docket 22-057-03. The Company hoped that by filing all dockets concurrently, that all changes associated with this docket, and other concurrently filed dockets, could take place on the same day. This results in fewer versions of the final Tariff being provided to the public, less confusion about the Company's identity, and lower likelihood that customers would be confused. The Company could not file the application in Docket 24-075-T03 until after the June 1<sup>st</sup> closing. June 3 was the first business day thereafter.

### **CORRECTED TARIFF SHEETS**

As noted above, the Tariff sheets submitted with the Application in this docket contained incorrect Advice Numbers and incorrect Section Revision Numbers. The Company has corrected those errors and respectfully submits the attached Corrected EGU Exhibits 1.2 and 1.3.

Based on the foregoing, the Company respectfully requests that the Commission accept the enclosed supplemental information, strike the previously-filed EG Exhibits 1.2 and 1.3 and replace it with Corrected EGU Exhibits 1.2 and 1.3.

A Company witness will appear at the hearing on this matter to verify the statements made herein.

DATED this 12<sup>th</sup> day of June, 2024.

Respectfully submitted,

ENBRIDGE GAS UTAH
