Re: *Enbridge Gas Utah's Energy Efficiency Reports, 2025*, Docket No. 25-057-05,
Dominion Energy Utah's Energy Efficiency Reports, 2024, Docket No. 24-057-
01, *Application of Dominion Energy Utah to Amortize the Energy Efficiency*
Deferred Account Balance, Docket No. 23-057-20

Dear Mr. Mendenhall:

The Public Service Commission (PSC) reviewed Enbridge Gas Utah's (EGU) (formerly, Dominion Energy Utah) February 14, 2025 filing of its Energy Efficiency ("EE") Report for the Year Ending December 31, 2024 ("Report").¹ The Report provides 2024 4th quarter and full year totals for EGU's energy efficiency programs, including program participation, costs, and natural gas savings. The Report states that total spending for the 2024 EE program year reached 99.4% of the \$25.7 million budget.² EGU reported exceeding annual budget thresholds in EE program budgets on July 15, 2024, November 14, 2024, and December 14, 2024.

DPU submitted comments on March 17, 2025. DPU recommends the PSC acknowledge that EGU's Report complies with its reporting requirements.³ DPU

¹ EGU is required to file an energy efficiency expenditure report with the PSC pursuant to EGU's commitment in its January 6, 2011 comments filed in Docket No. 10-057-15.

² EGU is required to file a DSM report when any DSM program reaches 90% of its annual budget, 50% of its annual budget before June, or 80% of its annual budget by August. See Docket No. 09-057-15, Order, at 3 (issued January 12, 2010) and Docket No. 10-057-15, Report and Order, at 4, (issued January 12, 2011).

³ See *Application for Approval of the 2011 Year Budget for Energy Efficiency Programs and Market Transformation Initiative*; Docket No. 10-057-15. In its January 6, 2011 comments, EGU agreed to,

Acknowledgment Letter from the PSC
Docket Nos. 23-057-20, 24-057-01, and 25-057-05
April 17, 2025
Page 2

summarizes the achievements of the program and reports that the program spent \$25.5 million dollars that resulted in 822,062 Dths saved. Additionally, DPU states, program participation dropped from 336,921 in 2023 to 279,500 in 2024 while “the number of participants who received rebates increased to 59,500 in 2024 from 56,921 in 2023.”⁴ Further, DPU states, “[EGU] and other interested parties should continue evaluating the specific program mix to ensure the most significant value is achieved.”⁵

Based on the PSC’s review of EGU’s Report and DPU’s comments and recommendation, the PSC acknowledges that EGU’s Report complies with the relevant reporting requirements.

Sincerely,

/s/ Gary L. Widerburg
PSC Secretary
DW#339388

among other things, provide the Office of Consumer Services and DPU with quarterly reports setting forth data relating to program participation, Dth savings, actual spending, and budgets.
