Enbridge Phase II Technical Conference

June 24, 2025

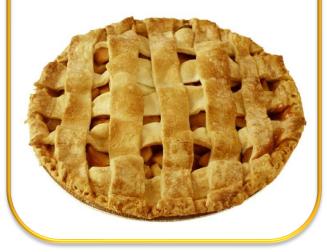

Key Components of a General Rate Case

Revenue Requirement

- Determines how much money needs to be collected to run the utility and provide a reasonable return
- Total dollar amount

Cost of Service

 Determines how much of the revenue requirement (total pie) should be paid by each class of customers

Rate Design

- Determines how class revenue requirement is collected
- Volumetric, fixed, seasonal, etc.

Revenue Requirement

Costs to run the utility

- Mains
- Service Lines
- Meters
- Depreciation

- Trucks
- Buildings
- Employee salaries
- Billing
- Meter Reading
- Customer Records

- Maintenance
- Production and Gathering
- LNG Storage

- Gate Stations
- Measuring and Regulator Stations

\$115 Million Revenue Requirement Increase

- Rate Base Increase \$51 Million (\$487 Million Rate Base Increase)
- ROE 9.6% to 10.6% \$22 Million
- Depreciation Expense \$20 Million
- Equity Thickness 51% to 53% \$6 Million

Key Components of a General Rate Case

Revenue Requirement

- Determines how much money needs to be collected to run the utility and provide a reasonable return
- Total dollar amount

Cost of Service

 Determines how much of the revenue requirement (total pie) should be paid by each class of customers

Rate Design

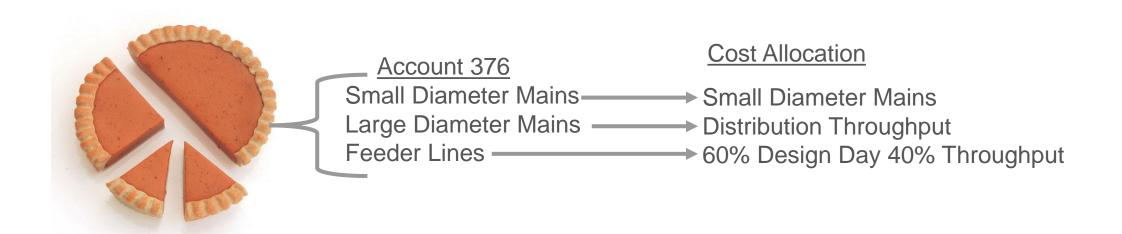

- Determines how class revenue requirement is collected
- Volumetric, fixed, seasonal, etc.

Cost of Service

Cost Causation – customer that causes the cost should pay the cost

EGU Exhibit 5.14U, COS Detail Sheet											
Line No.	376 Mains	Cost Allocation	GS	FS	IS	TSS	TSM	TSL	TBF	NGV	Total

Cost of Service Allocation Factors

Refer to EGU Exhibit 5.02 for the complete list of COS Allocation Factors

Volumetric Factors

- Design Day
- Throughput
- 60% Design Day 40% Throughput
- Firm Sales
- Firm Sales les NGV
- Distribution Throughput

Plant Factors

- Tools, Shop & Garage Equipment
- Rate Base
- Gross Plant
- Distribution Gross Plant
- Direct Distribution Gross
 Plant
- SD Mains
- Mains
- Service Lines
- Meters & Regulators
- Mains & Service Lines

Revenue Factors

- DNG Revenue
- DNG Revenue Less NGV

Customer Factors

- Customers
- 75% Customers 25% DNG Revenue

Expense Factors

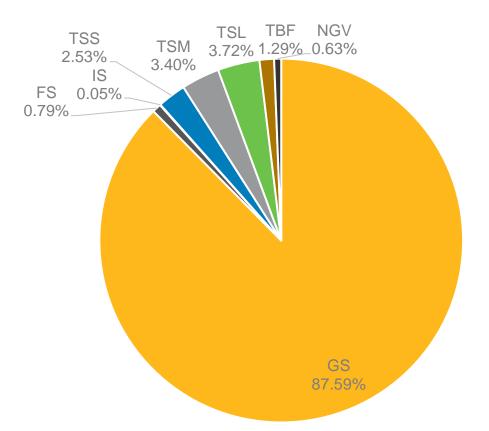

- Customer Assistance Expense
- Distribution O&M Expense

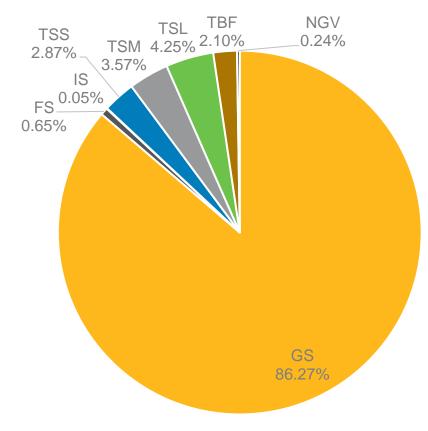

Class Allocation Change

25-057-06

Docket No.	GS	FS	IS	TSS	TSM	TSL	TBF	NGV
22-057-03	87.59%	0.79%	0.05%	2.53%	3.40%	3.72%	1.29%	0.63%
25-057-06	86.27%	0.65%	0.05%	2.87%	3.57%	4.25%	2.10%	0.24%
Difference	-1.32%	-0.14%	0.00%	0.35%	0.16%	0.53%	0.80%	-0.38%

Key Components of a General Rate Case

Revenue Requirement

- Determines how much money needs to be collected to run the utility and provide a reasonable return
- Total dollar amount

Cost of Service

 Determines how much of the revenue requirement (total pie) should be paid by each class of customers

Rate Design

- Determines how class revenue requirement is collected
- Volumetric, fixed, seasonal, etc.

Rate Design

Utah Service Territory Implementation

Basic Service fee

Fixed fee

Uniform across all rate classes, both sales and transportation

Four levels, increasing with capacity rating of meter

Established with separate study

No proposed change to existing fee in this case

Volumetric Rate (charge per unit of consumption):

Used for all rate classes and special contracts

Unique rate set for each class

Declining Blocks

Summer/Winter Differential

Administrative Fee

Fixed fee applied to Transportation classes

Developed in separate study

Proposed increase from \$2,400 to \$3,000

Demand Charge

Applied only to Transportation customers

Per-Dth rate applied to firm demand

Conservation Enabling Tariff History

2019	1,099,047	15,095,194	77,081
2020	1,158,448	19,038,255	86,169
2021	931,950	15,439,817	57,768
2022	949,449	16,018,029	53,429
2023	1,047,764	16,239,031	54,968
2024	927,035	15,423,781	59,500
Total	15,293,465	283,889,347	1,439,710

Explanation of Revenue Decoupling

Total Revenue Requirement: \$100

Total Customers: 10

Allowed Revenue Per Customer: \$10/Customer

Total Revenue Requirement: \$100

Usage: 100 Dths

Total Price/Dth: \$1/Dth

Declining Usage

Total Revenue Requirement: \$100

Total Customers: 10

Allowed Revenue Per Customer: \$10/Customer

Total Allowed Revenue: \$100

Total Revenue Requirement: \$100

Usage: 90 Dths

Total Price/Dth: \$1/Dth

Total Volumetric Revenue: \$90

Increasing Usage

Total Revenue Requirement: \$100

Total Customers: 10

Allowed Revenue Per Customer: \$10/Customer

Total Allowed Revenue: \$100

Total Revenue Requirement: \$100

Usage: 110 Dths

Total Price/Dth: \$1/Dth

Total Volumetric Revenue: \$110

Historical CET Adjustments

Year	Amount	Under/Over Collected
Jul 06 – Oct 19 (Years 1-13)	(\$11,444,647)	10 Over Collected/ 3 Under Collected
Nov 19 – Oct 20 (Year 14)	(\$2,386,792)	Over Collected
Nov 20 – Oct 21 (Year 15)	\$5,630,701	Under Collected
Nov 21 – Oct 22 (Year 16)	\$5,188,275	Under Collected
Nov 22 – Oct 23 (Year 17)	(\$21,900,172)	Over Collected
Nov 23- Oct 24 (Year 18)	(\$6,497,052)	Over Collected
Nov 24- May 25 (Year 19)	(\$11,133,155)	Over Collected
Total	(\$42,542,842)	14 Over Collected/ 5 Under Collected
