Re: Docket No. 25-057-06 - *Application of Enbridge Gas Utah to Increase Distribution Rates and Charges and Make Tariff Modifications*

Dear Mr. Summers:

The Public Service Commission (PSC) has reviewed Enbridge Gas Utah's (EGU, formerly Dominion Energy Utah) May 1, 2026, compliance filing (the "Filing"), submitted pursuant to the PSC's April 14, 2026, Order (the "Order")¹. The Filing includes Corrected Tariff Sheets for the FS volumetric rates (the "Tariff") and outlines the implementation measures EGU enacted to fulfill the Order's requirements. EGU confirmed that the "Tariff sheets do not constitute a violation of state law or [PSC] rule."²

On June 1, 2026, the Division of Public Utilities (DPU) filed comments confirming EGU's compliance. While tight time constraints prevented the DPU from auditing the physical billing documentation, the DPU noted that discussions with key EGU personnel provided a high degree of confidence that the account true ups were executed properly. Finding the Corrected Tariff Sheets to be accurate, the DPU recommends the PSC approve the Tariff.

Based on its review of the Filing and DPU's comments and recommendations, the PSC acknowledges the Filing complies with the Order and hereby approves the Tariff.

¹ The Order altered the December 24, 2025, Order in the referenced docket.

² Filing at 2.
