## Recommendation (No Action Required)

The Division of Public Utilities (Division) recommends that the Public Service Commission (Commission) include the review of Enbridge Gas Utah's (EGU) Results of Operations Report (2024 ROO) with the Division's review of EGU's General Rate Case Docket No. 25-057-06.

## Issue

On April 30, 2025, EGU filed its 2024 ROO for the year ended December 31, 2024, as called for in the Commission's Order in Docket No. 93-057-01. The Commission issued an Action Request on April 30, 2025, directing the Division to review the 2024 ROO and make recommendations with a due date of May 30, 2025. This memorandum is the Division's response to the Action Request

On May 1, 2025, EGU filed its general rate case in Docket No. 25-057-06. The Division will be conducting its review of the 2024 ROO during its review of the general rate case as the base period. The Division requests the review of the 2024 ROO be in conjunction with the Division's review of the general rate case base period
