# Energy Efficiency Program Proposal

---

## ThermWise® Appliance Rebates Program

---

## Program Overview

### Description

Enbridge Gas Utah (Enbridge Gas or the Company) is proposing to continue offering the ThermWise® Appliance Rebates Program to Enbridge Gas residential GS customers in Utah. This program will be delivered to customers in the Company's Utah service territory. Rebates will be offered on qualified program measures and mailed to the participating customer upon proof of purchase and/or installation.

Program measures will include high-efficiency space-heating equipment, smart thermostats, water-heating equipment, and gas fireplaces. Rebates for most measures will be available regardless of who installs the product.

The program will be delivered through local retail, distributor, and contractor channels.

# Program Design

## Program Measures

### Qualifying Customers

All residences receiving service on the GS rate schedule in the Enbridge Gas Utah service territory are eligible to participate in the program.

### Qualified Energy Efficiency Measures

For a complete list of rebate-qualifying models for each measure and minimum efficiency requirements, please visit <https://thermwise.com/equipment-specs/>.

## Program Projected Participation and Savings

To receive a rebate, customers must install a qualifying program measure, then complete and submit a rebate application form within six months of the measure installation date. Rebate amounts, projected participation, and natural gas savings estimates are provided in Table 1. Rebate amounts are shown per unit and were determined by examining the best available information on incremental costs of the equipment, recognizing the minimum rebate levels necessary to constitute a viable marketing message, and overall program cost effectiveness.

**Table 1. Appliance Energy Efficiency Projected Participation and Savings**

Single Family (1-3 units)		
Measure	Projected Participation	Total Projected Savings (annual Dth)
Natural Gas Furnace	4,300	51,235
Storage Water Heater	160	458
Condensing Storage Water Heater	25	217
Hybrid Water Heater	20	174
Natural Gas Boiler	135	2,917
Solar Assisted Water Heater	10	433
Tankless Water Heater	1,650	15,956
Fireplace	100	194
Smart Thermostat	3,000	23,416
Boiler Reset Control	10	54
Combined Space and Water Heater Units	45	855
Smart Water Heater Controller	35	88
Dual-Fuel Heat Pump System	4,550	120,040

Energy Recovery Ventilation (ERV)	40	416
<b>TOTAL Single Family</b>	<b>14,080</b>	<b>216,450</b>
<b>Multifamily (4 or more units)</b>		
<b>Measure</b>	<b>Projected Participation</b>	<b>Total Projected Savings (annual Dth)</b>
Natural Gas Furnace	425	3,820
Storage Water Heater	80	172
Condensing Storage Water Heater	40	216
Hybrid Water Heater	0	0
Natural Gas Boiler	2	28
Solar Assisted Water Heater	1	69
Tankless Water Heater	50	379
Fireplace	4	3
Combined Space and Water Heater Units	0	0
Smart Water Heater Controller	0	0
Dual-Fuel Heat Pump System	10	131
Energy Recovery Ventilation (ERV)	1	5
Smart Thermostat	400	2,060
<b>TOTAL Multifamily</b>	<b>1,013</b>	<b>6,881</b>
<b>TOTAL Appliance Program</b>	<b>15,093</b>	<b>223,331</b>

## Rebate Limitations

ThermWise® Appliance Rebate program limitations are defined in Section 2.10 of the Company's Utah Tariff (EGU Energy Efficiency Exhibit 1.9).

## Implementation

This program is currently in the marketplace. Upon Commission approval, implementation activities will begin for the new program year in order to launch January 1, 2026.

## Administration

The program administration represents the on-going delivery of the program. All internal systems, processes, and procedures have been created and are in place for 2026.
