**NOTICE OF TECHNICAL  
CONFERENCE**

-----

ISSUED: August 5, 2002

By The Commission:

The Commission has made a preliminary determination regarding the amount Questar Gas should recover for the CO2 processing expenses at issue in Docket 98-057-12. We have also preliminarily decided that recovery of those expenses should be spread among the various customer classes consistent with the spread of CO2 processing costs currently in Questar=s general rates. Prior to issuing a final order on this issue, we need further information from the parties. Accordingly, you are hereby notified that a Technical Conference will be held in this matter on Monday, August 12, 2002, beginning at 10:00 a.m. in Room 427, Heber Wells Building, 160 East 300 South, Salt Lake City, Utah.

Questar is directed to provide at the technical conference the dollar amount that has been collected under each rate schedule through the 191 Account for the CO2 processing costs at issue in this docket. During the technical conference we will discuss possible methods of assigning costs to all customer classes in a manner consistent with the current spread of CO2 processing costs in Questar=s general rates.

The Commission will also schedule a future technical conference to begin an examination of the costs and expenses currently booked to the 191 Account, and any needed revisions to 191 Account contents and practices.

In compliance with the Americans with Disabilities Act, individuals needing special accommodations (including auxiliary communicative aids and services) during this hearing should notify Julie Orchard, Commission Secretary, at 160 East 300 South, Salt Lake City, Utah, 84111, (801) 530-6713, at least three working days prior to the technical conference.

DATED at Salt Lake City, Utah, this 5<sup>th</sup> day of August, 2002.
