ARTICLE II. SCOPE OF AGREEMENT

Section 2.01 Poles; Geographic Scope

This Agreement shall apply to all areas served by the Parties in the State of Utah and shall cover all poles of each of the Parties within Utah which are presently commonly used, as well as poles which are now existing or which shall hereafter be erected in areas mutually served when such poles are included within the scope of this Agreement in accordance with its terms.

This Agreement applies to the use of the Parties’ poles only. The use of electric transmission facilities, other than transmission poles, is expressly excluded from coverage under this Agreement. Any requests for permission to use excluded transmission towers, conduits, and other structures, will be considered individually and, if granted, shall be covered by a separate agreement.

Section 2.02 Attachments; Purpose

Each Party’s use of the other Party’s poles shall be confined to the Attachments which Pole Owner has given Licensee written permission to install or as otherwise provided pursuant to the terms and conditions of this Agreement.

Section 2.03 Reservation of Rights

Pole Owner may reserve space on its poles if such reservation is consistent with a bona fide development plan that reasonably and specifically projects and identifies a need for that space in the provision of its core utility service. In granting permission to use a pole or poles upon which space has been reserved, Pole Owner shall inform Licensee of the space reservation. Pole Owner shall permit use of its reserved space until such time as Pole Owner has an actual need for that space, when Pole Owner may recover the reserved space for its own use. Pole Owner shall give the displaced Licensee commercially reasonable notice of the reclamation of space as well as the opportunity to make alternate arrangements, if available, including but not limited to allowing Licensee to pay for any reasonable modifications needed to continue to accommodate the Attachments that would otherwise be displaced.

ARTICLE III. USE OF POLES

Section 3.01 Application for Permission to Install Attachment

With the exception of customer service drops [and temporary overlashings](#), before Licensee places an Attachment upon any of Pole Owner's poles, Licensee shall request permission from Pole Owner in writing and submit payment for all applicable fees, pursuant to the Fee Schedule (attached as Exhibit __) ¹ and the Rental Rate Schedule (attached as Exhibit __) upon receipt of an invoice from Pole Owner. Rental Fees shall not apply until the attachment identified on the application is physically in place.

Licensee shall make its written application to Pole Owner at the address set forth in Article XI. The written application form is attached hereto as Exhibit __ and may be revised from time to time as approved by the Commission. The application shall contain all required information including: the specific equipment to be installed, the map number (to the extent that it is identifiable or provided by Pole Owner and part of the pole number), both party's pole numbers (to the extent that the pole numbers are on the pole and identifiable as the party's pole number), street address of nearest physical location identifier of the poles in question, the space desired on each pole, and any additional information requested by Owner as reasonably necessary to properly review the request for attachment. Pole Owner shall not unreasonably request such additional information. Licensee shall not unreasonably refuse to provide such additional information.

[For purposes of this Section, temporary overlashings shall be defined as new cable that is overlashed to an existing strand of cable until services can be transferred from the existing cable to the new cable. After the transfer of services is complete, the pre-existing cable is stripped from the strand and removed.](#)²

In the event the Commission approves an ENS, the Parties will use the approved ENS to submit, approve and/or deny applications for permission to attach, relocate or remove Equipment and will follow all procedures required by such ENS.

Section 3.02 Licensee's Right to Install Equipment

Pole Owner will either approve or deny applications within forty-five (45) days of receipt of the application. If notice is not received from Pole Owner within forty-five (45) days, Licensee may proceed with installing the Attachment, and such Attachment shall be deemed authorized, subject to all other terms and conditions of this Agreement.

The Parties acknowledge that, from time to time, the forty-five (45) day processing standard may not be feasible for various reasons including, but not limited to: a requirement of the Licensee for more expeditious handling to accommodate a small but urgent project; a requirement of the Pole Owner for additional handling time to accommodate a Licensee's large project or an unusually high volume of applications from several different licensees. When such circumstances arise, the Parties agree to

¹ Issues No. 1 – Fees

² Issue No. 4 – Overlashing

provide each other with reasonable advance notice of the circumstances and to work together in good faith to develop suitable and reasonable timelines and special handling procedures.³

After processing, Pole Owner shall inform Licensee that the application has been approved or denied by returning the application with an appropriate notation to the Licensee at the address set forth in Article XI. Any denial of an application by the Pole Owner must be in writing and describe with specificity the lack of pole capacity, safety or reliability problems, or generally applicable engineering standards that led to the denial of the application.

Licensee shall have the right, subject to the terms of this Agreement, to install, maintain, and use the Equipment only as specified in the approved application, upon the pole(s) identified therein.

Licensee shall have the right to install service drops without prior approval by Pole Owner unless the service drop is the first Attachment on a pole or is placed outside the space used by another Attachment of Licensee. However, when Licensee installs service drops, Licensee must follow all procedures applicable to Attachments generally, except for filing applications and payment of fees, and shall submit notification to Pole Owner on a quarterly basis. Notwithstanding the above, no notification shall be required for service drops that are self-supporting wire or wires that do not require the use of messenger strand and a lashed cable. Required notifications of service drop installations shall contain information identifying the pole to which the service drop was added.⁴

Section 3.03 Labeling of Poles and Attachments

Pole Owner and Licensee shall conform to Utah Administrative Rule R746-345-4 pertaining to pole and attachment labeling. When Pole Owner renumbers a pole, it shall provide written notice of the new pole number and cross-reference to the old pole number and location to Licensee within thirty (30) days. When the Pole Owner sells a pole or poles to a third party, such sale shall be documented by a Bill of Sale or other legal document and the Licensee shall be provided with the name and contact information for the new pole owner within thirty (30) days of the sale. Pole Owner shall also provide to Licensee a detailed list of poles sold which includes pole numbers and any other available information which will assist Licensee in identifying the specific poles sold.

Section 3.04 Conformance to Requirements and Specifications

Licensee shall, at its own sole risk and expense, place and maintain its Equipment upon the poles in conformity with the requirements and specifications of the NESC and other applicable law, as well as any additional construction standards approved by the Commission and attached to this Agreement as Exhibit __. Licensee agrees that, consistent with industry practice and in consideration of safety and service concerns, twisted pair copper cable or wire shall be the lowest Attachment on Pole Owner's poles. All other cable or wire Attachments shall be placed above twisted pair copper cable. On a going forward basis, Pole Owner and Licensee shall endeavor to attach twisted pair copper cable or wire at the lowest point available to meet applicable standards in order to mitigate unnecessary costs by other attachers.

³ Issue No. 2 – Timeframes

⁴ Issue No. 3 – Service Drops

Licensee shall ensure that all overlashes conform with the construction and other standards and terms set forth in this Agreement and Licensee shall be responsible for any nonconformance whether made by Licensee or by a third party.

Section 3.05 Access to Electric Utility Space

Unless Licensee is an electric utility or is using a qualified electrical contractor pre-approved by electric utility, Licensee shall not enter the electric utility space on Pole Owner's poles for any purpose. When the Equipment sought to be installed on a pole bearing electric facilities is a wireless antenna, which is to be installed at the pole top or otherwise in or above the electric utility space, Licensee shall make special arrangements with the Pole Owner for installation of the wireless antenna by electric utility employees or qualified electric contractors approved by the electric utility. The electric utility shall provide a list of qualified electric contractors. A Licensee may request an electric contractors be added to the list. The electric utility shall respond to such request within 30 days. Installation work in the electric utility space to be performed by employees of the Pole Owner shall be performed pursuant to a separate installation agreement.

Section 3.06 Grounding

If Licensee requires grounding on an existing pole where a grounding conductor does not exist, Licensee shall request the Pole Owner to install grounding at the sole expense of Licensee. If the Pole Owner is unable to install said grounding within 30 days of the date requested, or sooner if necessary to meet the Commission's service quality requirements, Licensee may hire qualified electrical contractors to perform this work. Licensee, its employees and its contractors, shall at all times exercise Licensee's rights and perform Licensee's responsibilities under the terms of this Agreement in a manner that treats all electric facilities of the Pole Owner as energized at all times. Licensee shall assume complete responsibility for its employees' or contractors' conduct and Licensee shall determine and provide the appropriate training and safety precautions to be taken by Licensee's employees and contractors. Licensee shall indemnify, defend, and hold Pole Owner harmless from any liability of any sort derived from Licensee or Licensee's employees' or contractors' failure to abide by the terms of this paragraph.

Section 3.07 Nonconforming Equipment

If any Attachment is not placed and maintained in accordance with the Requirements and Specifications of Section 3.04, upon notice by Pole Owner, Licensee shall timely perform all work necessary to correct conditions of Licensee's noncompliance. For purposes of this paragraph, compliance shall be deemed timely if performed during Licensee's regularly scheduled maintenance activities or under a plan approved by Pole Owner, unless such noncompliance creates an immediate safety or other threat as described below. Any such work will be performed at Licensee's sole risk and expense. Pole Owner reserves the right to perform or authorize work necessary to bring Licensee's Attachments into compliance upon Licensee's failure to timely do so. Pole Owner will attempt to notify Licensee electronically or in writing prior to performing such work whenever practical.

However, if Pole Owner determines such conditions pose an immediate threat to the safety of utility workers or the public, interfere with the performance of Pole Owner's or other pole attachers' service obligations, or pose an immediate threat to the integrity of Pole Owner's or other pole attachers' poles

or Equipment, Pole Owner may perform or authorize such work and/or take such action that it deems necessary without first giving written or electronic notice to Licensee and without subjecting itself to any liability, except to the extent of Pole Owner's negligence or willful misconduct. As soon as practicable thereafter, Pole Owner will advise Licensee in writing of the work performed or the action taken and will endeavor to arrange for the accommodation of any affected Attachments. Licensee shall be responsible for paying Pole Owner or other pole attachers, if applicable, upon demand, for all costs incurred by Pole Owner or other pole attachers for all work, action, and accommodation performed by Pole Owner or other pole attachers under this Section 3.07.

Section 3.08 Time to Complete Installation

Except as otherwise agreed to by the Parties in good faith, Licensee shall complete the installation of its Attachments upon the pole(s) covered by each approved application within ninety (90) days of approval by Pole Owner. In the event Licensee should fail to complete the installation of its Attachments within the prescribed time limit, the permission granted by Pole Owner to place such Attachments upon Pole Owner's pole or poles shall terminate and Licensee shall not have the right to place such Attachments upon the pole or poles without first reapplying for and receiving permission to do so, all as prescribed in Section 3.01 as applicable to the initial application.

Section 3.09 Make-ready Work

If in the reasonable judgment of Pole Owner the accommodation of any of Licensee's Attachments necessitates Make-ready Work, in the response to Licensee's application Pole Owner will indicate the Make-ready Work that will be necessary to accommodate the Attachments requested and the estimated cost thereof within the application processing time period identified in Section 3.02. If Licensee is willing to bear the cost of all Make-ready Work necessary, as determined by Pole Owner, Licensee shall so indicate via ENS or in writing within thirty (30) days of the date of Pole Owner's response to Licensee's initial application. Pole Owner will provide Licensee an estimated completion date for any Make-ready Work, taking into account the overall scope of the Licensee's project, the volume of applications received from other licensees, as well as the availability of crews to perform the work. The Licensee and the Pole Owner shall negotiate solutions in good faith when the estimated time to perform the Make-ready Work does not meet the Licensee's project requirements. At Licensee's option, Licensee may request either assistance with the work by Licensee or by qualified contractors hired by the Licensee, payment of premium rates for Pole Owner's employees to be dedicated to perform work solely on Licensee's project, or similar measures designed to augment the Pole Owner's capabilities.⁵

Pole Owner will perform such Make-ready Work as may be required and Licensee will reimburse, upon demand, Pole Owner for the entire expense thereby actually and reasonably incurred. Licensee shall pay the costs of all Make-ready Work undertaken by Pole Owner where such work is initiated as a result of the proposed installation of Attachments on any poles without regard to whether Licensee elects not to use the pole or poles after Make-ready Work has commenced. An itemized statement detailing the actual material, hours, equipment costs, and any other associated costs will be provided to Licensee for payment of Make-ready Work.

⁵ Issue No. 2 –Timeframes

Section 3.10 Pole Owner's Rights to Use Poles

Pole Owner reserves to itself the right to maintain the poles and to operate its Equipment thereon in such manner as will best enable it to fulfill its own core service requirements, and Pole Owner shall not be liable to Licensee or Licensee's customers for any interruption to Licensee's service or for any interference with the operation of Licensee's Equipment arising in any manner, from the use, maintenance, and repair of the poles and the Equipment thereon or from the removal of Attachments or other Equipment from the poles by Pole Owner in accordance with the provisions of this Agreement, except for Pole Owner's negligence or willful misconduct. Pole Owner will, however, except in cases of emergency, use reasonable efforts to contact Licensee prior to making changes that will affect Licensee's Attachments, but in any event will contact Licensee as soon as practicable thereafter.

Section 3.11 Third-party Consents, Permits, Licenses, Easements, Rights-of-way or Grants

The right of access to Pole Owner's poles granted by this Agreement does not include any right of access to the land upon which the pole is situated nor does it include any right to cross the land from pole-to-pole with Licensee's Equipment and such access rights are specifically disclaimed.⁶ Licensee is solely responsible for obtaining from public authorities and private owners of real property and maintaining in effect any and all consents, permits, licenses, easements, rights-of-way or grants that are necessary for the lawful exercise by Licensee of the permission granted by Pole Owner in response to any application approved hereunder. Licensee agrees to indemnify, defend and hold harmless Pole Owner against and from any and all third party claims, demands, law suits, losses, costs and damages, including attorneys fees, to the extent arising from Licensee failure, or alleged failure to have the requisite authority.

Section 3.12 Interference with Pole Owner's or other Licensees' Equipment

If, in Pole Owner's reasonable judgment, Licensee's existing Attachments on any pole interfere with Pole Owner's or other pole attachers' existing Equipment or prevent the placing of any additional Equipment by Pole Owner required for its core utility service and included in Pole Owner's bona fide development plan as described in Section 2.03, Pole Owner will notify Licensee of the rearrangements or transfers of Equipment or pole replacements or other changes required in order to continue to accommodate Licensee's Attachments. If Licensee desires to continue to maintain its Attachments on the pole and so notifies Pole Owner in writing within thirty (30) days, Licensee may perform the necessary work (subject to Pole Owner's approval based on safety issues), or Licensee shall authorize Pole Owner to perform the work. Should Licensee authorize Pole Owner to perform the work, Pole Owner shall make such changes as may be required, and Licensee, upon demand, will reimburse Pole Owner for the entire expense thereby actually and reasonably incurred. If Licensee does not so notify Pole Owner of its intent to perform the necessary work or authorize Pole Owner to perform the work, Licensee shall remove its Attachments from the affected pole or poles within an additional ten (10) days from such original notification by Pole Owner for a total of forty (40) days; provided, however, that Pole Owner in any emergency may require Licensee to remove its Attachments within the time required by the emergency. If Licensee has not removed its Attachments at the end of the forty (40) day period, or in the case of emergencies, within the period specified by Pole Owner, Pole Owner may remove Licensee's Equipment at Licensee's sole risk and expense, and Licensee will pay Pole Owner, upon demand, for all costs thereby incurred by Pole Owner.

⁶ Issue No. 6 – Easements

Section 3.13 Pole Replacement for the Pole Owner's Benefit

Where an existing pole is changed out solely for the Pole Owner's benefit, the Pole Owner will bear the total cost of the pole replacement including the labor for the lower and haul of the old pole but not including the cost to transfer Licensee's attachments to the new pole. After Pole Owner has completed its work it shall notify Licensee, and Licensee shall, at its own expense, transfer its attachments to the new pole within thirty (30) days after the time specified in the notice given by the Pole Owner indicating that the pole is ready Licensee to transfer its equipment (which time shall not begin until after the parties located above the Licensee on the pole have removed or moved their facilities).—

Section 3.14 Pole Replacement for Licensee's Benefit

Where an existing pole is prematurely replaced (for reasons other than normal or abnormal decay) by a new pole for the sole benefit of the Licensee, the Licensee shall reimburse the Pole Owner for all costs, including, but not limited to the cost in replacing the new pole, the remaining life value of the existing pole, lower and haul of the existing pole (to the extent that this is performed by the Pole Owner), and topping of the existing pole when performed either as an accommodation to Licensee or as required by NESC. Pole Owner shall credit the Licensee for salvage value of the existing pole if it is not topped and it is less than ten years old. Pole Owner shall remove and may retain or dispose of such pole as the sole owner thereof. Any payments for poles made or work performed by the Licensee shall not entitle Licensee to ownership of any part of said poles. If pole replacement under this Section 3.14 benefits both Licensee and other pole attachers, the costs shall be pro-rated among all benefiting attachers.

Section 3.15 Pole Placement or Replacement for Joint Benefit of Pole Owner and Licensee

Where Pole Owner requires a new pole and Licensee requires extra height or strength exceeding a basic 40 foot Class 5 pole to accommodate its new or existing attachments, Licensee shall pay a sum equal to the difference between the total cost of installing a new pole adequate to accommodate Licensee's new and existing attachments and the total cost of a basic 40 foot Class 5 pole. The balance of the cost of installing the pole actually installed shall be borne by Pole Owner.

Section 3.16 Expense of Situating Pole Attachments

Licensee shall place, maintain, rearrange, transfer, and remove its own Attachments at its own expense except as otherwise expressly provided hereunder.

Section 3.17 Relocation, Replacement, Repair or Transfer of Licensee's Attachments

Licensee shall at any time, at its own sole reasonable risk and expense, upon reasonable notice from Pole Owner, relocate, replace or repair Licensee's Attachments or transfer them to substituted poles. Provided, however, that in cases of emergency or if Licensee fails to relocate, [replace, repair or transfer its Attachments as](#) required by a Pole Owner's notice, Pole Owner may, without incurring any liability except for negligence, relocate or replace Licensee's Attachments or Equipment, transfer them to substituted poles, or perform any other work in connection with the Licensee's Attachments or Equipment that may be required, or authorize a third party to perform such tasks, and Licensee will, upon demand, reimburse Pole Owner or such third party for the entire expense thereby incurred.

When the Licensee is required to relocate its facilities to accommodate a third party attaching to the pole, Pole Owner shall disclose the third party's name and contact information to the Licensee at the time the relocation or rearrangement is requested. Licensee shall be entitled to seek reimbursement

from the third party attacher prior to relocating its facilities.⁷

Section 3.18 Relocation of Joint Poles at Request of Land Owner

Where a jointly used pole is required to be replaced, moved or relocated due to a landowner request, Pole Owner shall provide notice to Licensee upon receipt of the land owner request and coordinate with Licensee and all other pole attachers to provide a coordinated response with respect to timelines and costs to land owner.

The Licensee shall promptly arrange to transfer its Equipment to the new pole and shall notify the Pole Owner when such transfer has been completed. In the event such transfer is not completed within thirty (30) days after the time specified in the notice given by the Pole Owner indicating that the pole is ready for Licensee to transfer its Equipment (which time shall not begin until after the parties located above the Licensee on the pole have removed or moved their facilities), Pole Owner may transfer Licensee's Equipment from the replaced pole to the replacement pole in a reasonable manner consistent with industry practices upon Licensee's failure to transfer its Equipment within the above mentioned thirty (30) days notice, and Licensee will reimburse Pole Owner for all actual costs incurred.

If the Licensee performs any work for the Pole Owner to facilitate Pole Owner's responsibilities in completion of the above work or in cases of emergency work, including without limitation transferring other equipment, setting or lowering poles, digging holes, or hauling poles, the Pole Owner shall pay to Licensee, upon receipt of an invoice, the cost of such work. When setting a pole requires entering the electric utility space, the setting of the pole must be performed by a qualified electric contractor approved by the electric utility pursuant to Section 3.05, or may be performed by a licensed electrical engineer employed by Licensee upon prior approval of the electric utility.

Section 3.19 Mid-span Poles

Any poles erected by Licensee shall not interfere with or be in-line with Pole Owner's poles and shall not create a structure conflict as defined in the NESC. If either Party requires placement of a pole in-line with any two existing poles owned by the other party ("i.e., a mid-span pole"), the Party requiring the mid-span pole shall pay the cost of setting the pole, including the cost of the pole itself. The owner of the poles on either side of the mid-span pole will have sole ownership of the mid-span pole and the Party requesting the pole will pay pole rental fees to the pole owner in accordance with Article V.

Section 3.20 Removal of Attachments by Licensee

Licensee may at any time remove its Attachments from any of the poles and, in each case, Licensee shall immediately give Pole Owner notice of such removal ~~and submit payment of all applicable fees upon receipt of an invoice from Pole Owner.~~⁸ Removal of all Attachments from any pole shall constitute a termination of Licensee's right to use such pole. Licensee will not be entitled to a refund of any rental on account of any such voluntary removal. When Licensee removes Attachments, rental charges payable by Licensee will be prospectively reduced in the annual billing cycle following Licensee's proper notice to Pole Owner of the removal.

⁷ Issue No. 7 – Relocation Costs (Sections 3.12 through 3.18.)

⁸ Issues No. 1 – Fees

When Licensee performs maintenance to or removes or replaces its Equipment on Pole Owner's pole, Licensee must chemically treat all field-drilled holes and plug any unused holes caused by Licensee, including those resulting from removal of Equipment; if Licensee fails to adequately plug and treat such holes, Pole Owner may do so at Licensee's sole risk and expense.

Section 3.21 Unused Equipment

Except for seasonally used equipment, whenever Licensee has ceased using any Equipment situated upon Pole Owner's poles with no intention of placing the Equipment back in service, Licensee will remove the Unused Equipment from Pole Owner's poles within 365 days of the date of last use. If Licensee demonstrates to Pole Owner's reasonable satisfaction that it is more likely than not that Licensee will resume using the Unused Equipment in the same location within a period of three-years from the date of last use; and that leaving Licensee's Unused Equipment in place will not preclude Pole Owner or a third party from using the poles occupied by Licensee's Unused Equipment; and that leaving Licensee's Unused Equipment in place does not contravene any other obligation of Licensee under this Agreement, the Unused Equipment may remain in place, subject, in all cases to payment of the rental charges under this Agreement for the pole space occupied.

Section 3.22 Limitations on Licensee's Rights to Use Poles; Termination

No use, of any sort or duration, of any poles under this Agreement shall create or vest in Licensee any ownership or property rights therein; nor shall any such use constitute the dedication of the Pole Owner's poles or Equipment to the public or to Licensee, subject to the UAR and other applicable laws and statutes. Nothing contained herein shall be construed to compel Pole Owner to maintain any particular pole or poles for a period longer than demanded by Pole Owner's own service requirements.

Section 3.23 Damage to Equipment

The Parties shall exercise all necessary precautions to avoid causing damage to the other Party's poles and Equipment and other pole attachers' Equipment and shall assume responsibility to each other for any and all loss from any damage to the other Party's poles or Equipment and reimburse the other Party for the entire expense incurred in making such repairs. Each Party shall assume responsibility to third parties for any and all loss from any damage caused to third party's Equipment by such Party and shall reimburse such third party for the entire expense incurred in making repairs.

Section 3.24 Audits of Existing Attachments

Pole Owner may conduct an Audit of Attachments made to its poles no more frequently than once every five (5) years. Pole Owner shall give Licensee at least ninety (90) days prior notice of an initial meeting to plan the next Audit. At such meeting, Pole Owner, Licensee and all other pole attachers in attendance in person or by representative shall participate in, among other things, the selection of an independent contractor for conducting the Audit, as well as the scheduling, scope, extent and reporting of the Audit results. Regardless of whether Licensee attends the Audit planning meeting or expresses an intention to participate in the Audit, Pole Owner shall notify Licensee at least sixty (60) days prior to the commencement of the Audit. Licensee shall advise Pole Owner if Licensee desires to participate in the Audit with Pole Owner not less than thirty (30) days prior to the scheduled date of such Audit. The cost of the Audit shall be borne jointly by Licensee and all other parties having Attachments on poles in the audited territory in proportion to the number of poles attached to by each pole attacher in

relation to the total number of poles bearing Attachments in the audited territory.⁹ The data from Audit shall be made available to Licensee and all other attachers on the poles and used to update the Parties' records. Any Party shall make any objections to the Audit results within ninety (90) days of receipt of the Audit report or such objections are waived. The Parties shall diligently attempt in good faith to resolve any objections within ninety (90) days after any objection, during which time Licensee shall not be obligated to pay any disputed amounts. In the event objections remain unresolved after such 90-day period, either Party may commence dispute resolution pursuant to Section 7.01 below. However, Licensee's obligation to pay the disputed amounts resulting from the Audit shall resume upon expiration of such 90-day period consistent with Section 5.03 below. Refunds of disputed amounts that are resolved in favor of the disputing Party shall be made within 30 days of such resolution.¹⁰

Section 3.25 Inspections

In addition to audits as described in Section 3.25, Pole Owner shall have the right to inspection each of Licensee's Attachments and other Equipment attached to Pole Owner's poles at any time.

[PLACE HOLDER FOR REMAINING INSPECTION LANGUAGE]¹¹

Section 3.26 Tax Liability

Licensee shall promptly pay any tax, fee, or charge that may be levied or assessed against Pole Owner's poles or property solely because of their use by Licensee. If Licensee should fail to pay any such tax or assessment on or before the date such tax or assessment becomes delinquent, Pole Owner, at its own option, may pay such tax on account of Licensee and Licensee shall, upon demand, reimburse Pole Owner for the full amount of tax and any penalties so paid. Nothing in this provision in any way limits either Party's rights to challenge such tax assessments.

ARTICLE IV. MAINTENANCE OF POLES

Section 4.01 Expense of Maintenance

The expense of maintaining jointly used poles shall be borne by the Pole Owner thereof, and the Pole Owner shall maintain its jointly used poles in a safe and serviceable condition, and shall replace, reinforce, or repair such of those poles as become defective. The Pole Owner shall be solely responsible for collection of costs of damages for poles broken or damaged by third parties. The Licensee shall be responsible for collecting damages to its own Equipment. If a pole owned by one Party is replaced by the other Party because of auto damage or storm damage, the Pole Owner shall pay the other Party for the actual costs of such pole replacement.

Section 4.02 Relocation of Joint Poles Required For Maintenance Purposes

Whenever it is necessary to replace, move, reset, or relocate a jointly used pole for maintenance purposes, the Pole Owner thereof shall, before making such replacement, move, or relocation, give written notice thereof to Licensee (except in case of emergency, when oral notice shall be given if practicable and subsequently confirmed in writing), specifying in such notice the work to be performed
