Subject: Re Public Meeting to be held at 9.30 am-June 2007 Heber Wells Building -Wake up Call !!!!!!!!!!!!!!!!!!!!!!!.

Dear Sir ,

I have been appraised that the Public Service commission is once again going to change the rules to silence the voice of the individual ratepayer. I cannot attend your scheduled meeting but this is to voice my concern to enable my voice to be counted as one against big brother bureaucracy.

The division of Public Utilities and Committee of Consumer Services have proven with recent events that they cannot effectively represent the rights of the populace. The only voice of reason, Roger Ball was the only person that has the tenacity to stand up for the public at large and he was silenced by Big Business.

We want proper representation not diminished or impeded slight of hand -this America the Land of the Free!!!!!!!!!!!!!!

If the Commission now requires the participation of an Attorney it is obvious that this constitutes additional meandering as

to stupefy the voice of myself and others. What do we have Government for if you cannot enable our collective voice to be raised without impendance.

David Scott,
