Dear Sir,
 I am writing regarding rates and ratepayer's participation.

I understand the Division of Public is a government entity, therefore, if so, your salary is paid for by Utah taxpayers ie: ratepayers to Questar. If you impede our input to rate increases and change the rules, then, for us to participate would require an attorney, then you should pay for the attorney's fee. I often wonder what side the Committee of Consumer Services are really on, big business, or the consumer. Just because we don't show up for the hearings, don't believe for a moment we don't care what's going on. Please consider the large number of resident that are on fixed incomes and what increases affect them.

Thank you,
 M. Ives
