We should probably print this and add it to the area code overlay docket. Thanks. JPO

Below is an inquiry which was received by the Governor's Office of Constituent Services on 10/22/2008. Please respond directly to the constituent and reply to this email with a copy of your response by 11/5/2008.

Bryce Hinckley

UT

**SUBJECT:**

This is ridiculous! Starting June 1st, EVERYBODY has to dial 11 digits every time you call someone, instead of dialing just 7 numbers to talk to you next door neighbor. The Utah Public Service Commissioner made that decision for the convenience of the telephone companies and NOT for the convenience of the consumer!

Let the The Utah Public Service Commissioner know your fuming MAD about this it is a totally stupid move. Tell them you want a geographically based 385 area code which allow you the people you call most without dialing 11 digits! Those that need to change their area codes suffers for a month or two, but under this new plan we all suffer FOREVER Also Inform the Governor's Office.
